NO SHORTCUTS

NO SHORTCUTS

NO SHORTCUTS

Like the modest champion sitting in the corner listening as others spit their egos all over each other, SCOTT quietly lets its achievements, its victories, its skills speak for themselves. We don't make products for those who yearn to be noticed. We make them for those who are going to do what they do whether there's anyone watching or not.

If you're like us, you say what you say, do what you do, ride where you ride because you love it. You do it the right way. You do it for the right reasons.

SCOTT

INNOVATION TECHNOLOGY DESIGN

Since 1958 SCOTT Sports has pushed the limits of innovation, technology and design. From the first aluminium ski pole, to the introduction of aero bars and the original plastic moto cross boot, we have led the way in the sports industry.

Combining endless determination to improve with the methodical intricacy put into each product, SCOTT prepares athletes to reach their highest potentials.

The 2023 collection exemplifies this mentality and the unification of our three core philosophies. When you push yourself to the limit SCOTT will stand by you and help you surpass what even you believed was impossible. Let our passion become your passion and

your successes become our successes.

ELEVATE YOUR SAFETY

WITH SCOTT - WE'VE GOT YOU COVERED.

WE DEVELOP, TEST AND RE-TEST IN ORDER TO PERFECT OUR PRODUCTS OVER YEARS AND YEARS. OUR GOGGLES, GEAR AND BODY PROTECTION GIVE YOU THAT EXTRA BIT OF SAFETY IN THOSE CRUCIAL AREAS OF YOUR BODY WHEN IT COUNTS. REGARDLESS IF YOU ARE ON THE TRACK, ON TRAILS OR ANYWHERE ELSE -

“ELEVATE YOUR SAFETY”

WE GO BEYOND THE STANDARDS

SCOTT Sports has pushed the limits of innovation, technology and design and consequently is also pushing the limits of safety. For our Motosports collection, safety has a very high priority. It is not only the human power, but also the raw engine power beneath the rider that demands this extra level of safety. We at SCOTT are proud that our wide protection expertise, gained from our different sport involvements, allows us to push safety beyond standards.

When you push yourself to the limit SCOTT will stand by you and help you surpass what you believed was possible. We take the statement “Elevate your Safety” very seriously and don’t award this accolade to every product. Items in this category provide you with safety above standards. Convince yourself by checking out our range of “Elevate your Safety”

SPD SCOTT
PRECISION OPTICS

EYEWEAR LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

BODY PROTECTION EXTENDED COVERAGE DESIGN

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection.

PROSPECT

THE ULTIMATE GOGGLE TO OPTIMIZE CONTRAST AND CLARITY.

AMPLIFIER

The SCOTT Prospect Amplifier Goggle not only defends, but also enhances your vision when riding. These lenses are injection molded to provide improved definition and optical clarity, allowing you to see contours and transitions in the dirt like never before.

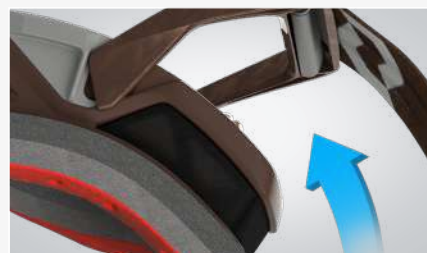

AMPLIFIER TECHNOLOGY

The injected Amplifier lens increases clarity and contrast to offer riders superior vision over a standard lens.

LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

PIVOTING OUTRIGGERS

The two pivoting outriggers adapt to any helmet shape, providing a good seal on the rider's face.

amplifier

The SCOTT Prospect Amplifier Goggle not only defends, but also enhances your vision when riding. These lenses are injection molded to provide improved definition and optical clarity, allowing you to see contours and transitions in the dirt like never before. With other perfected features such as the NoSweat face foam, a maximum field of vision, the innovative SCOTT Lens Lock System, articulating outriggers and much more, the super-stylish SCOTT Amplifier Prospect Goggle has been engineered to Defend Your Vision no matter how extreme the conditions get.

PROSPECT

THE PINNACLE OF MOTO GOGGLE DESIGN AND INNOVATION

The Prospect is the ultimate moto goggle. Designed from the ground up with performance in mind, this top-of-the-range goggle offers uncompromised vision, maximum protection and ultimate style.

MASSIVE FIELD OF VISION

SCOTT offers the largest field of vision on the market. The larger lens and the thin frame construction bring the lens closer to your eyes maximizing your vision to the fullest.

LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

PIVOTING OUTRIGGERS

The two pivoting outriggers adapt to any helmet shape, providing a good seal on the rider's face.

The SCOTT Prospect is our flagship off-road motocross goggle. Used by an ever-growing list of champions, the Prospect goggle has everything you need to ensure your vision is the best it can be on the track or trail. With perfected features such as the NoSweat face foam, a maximum field of vision, the innovative SCOTT Lens Lock System, articulating outriggers and much more, the super-stylish SCOTT Prospect goggle has been engineered to Defend Your Vision no matter how extreme the conditions get.

The SCOTT Prospect Light Sensitive Goggle is an absolute highlight among off-road and motocross goggles. It gives the rider a maximum field of vision and features an innovative SCOTT Lens Lock System that makes the lens stay in the frame no matter what impact is coming from outside. Like the regular Prospect, this model comes with NoSweat face foam. What makes this goggle so special is the Light Sensitive lens, which adapts automatically to sunlight intensity. With this lens you are equipped for any and all light conditions!

► HERITAGE EDITION | PROSPECT GOGGLE

DEFEND YOUR VISION

SINCE 1970

—

PROSPECT

The new Heritage Edition Prospect goggles from SCOTT take it all the way back to the very start of SCOTT's dominance in the world of motocross and off-road racing. The classic '70s inspired design represents the true DNA of SCOTT's racing heritage and gives a nod to the fifty plus years we have been making goggles for old school legends, modern day champions and everyone in between.

PROSPECT

THE NO. 1 CHOICE FOR CHALLENGING CONDITIONS

WFS

When it comes to racing on wet or muddy tracks, the Prospect WFS goggle is the only real choice. The race-proven, precision-engineered WFS50 system combined with the massive field of vision leaves all other goggles scrambling for second place.

CLICK-ON CANISTER

No need for tools, no need to waste time; simply click the canisters onto the WORKS pins and ride. The red lever makes sure the canister is safely attached. This system is the ultimate in WORKS technology.

LARGE 50 MM FILM

The SCOTT WFS50 is the largest film on the market, measuring a massive 50 millimeters. Combined with a thin frame construction, it offers up to 50 clear views even in the most challenging conditions.

ANTI-STICK GRID AND TRANSPARENT MUDFLAP

A large film requires an optimized anti-stick grid with mudflap. A thin vertical line has been added in the middle of the grid to make sure the film never sticks to the lens.

The SCOTT Prospect WFS Goggle is the perfect solution for racing in wet and muddy conditions. It comes equipped with a WFS50 roll-off system for a large and clear field of vision when the mud starts spraying. The canisters can be clipped directly on the WORKS lens pins for quick and easy installation, with no tools required. Tear-offs can then be easily installed on the same pins for extra vision protection. The transparent anti-stick grid offers a superior field of vision, smooth sliding on the lens and a better sealing with the lens at the top.

FRAME TECHNOLOGIES

- 50mm WORKS Film System canisters
- SCOTT anti-stick grid with mudflap
- Lens Lock System
- Articulated outriggers
- NoSweat 3-layer molded face foam
- Extra-wide, no-slip silicone strap

PROSPECT

A PRO-LEVEL GOGGLE FOR RIDERS THAT DEMAND THE BEST

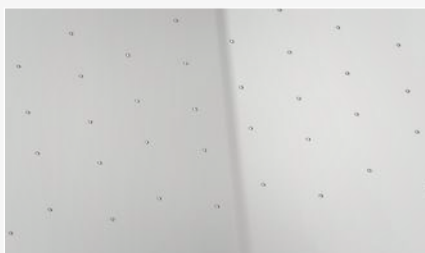

SUPER WFS

Previously only available to our pro team riders, the scott engineers have spared no expense in their quest to make the Prospect Super WFS the ultimate motocross racing goggle. With exclusive features and premium components, this goggle is as good as it gets.

DOUBLE LENS

Spacer Foam and Double Lens block moisture and eliminate fogging while allowing for optimal breathability.

PERFORATED ANTI-STICK DOTS ON LENS

To ensure the smoothest film transfer possible, anti-stick dots on the lens provide pro-level performance when you need it most.

WFS MUDFLAP WITH SEALING TAPE

Specifically designed to create the ultimate seal to keep out any unwanted water drops.

The SCOTT Prospect Super WFS is the ultimate motocross racing goggle. It possesses the same great features as the Prospect WFS, but the Super WFS version features a double WORKS lens with the unique addition of premium anti-stick dots for hyper-smooth sliding action and an upgraded mudflap with sealing tape for maximum performance. It comes equipped with a WFS50 roll-off system for a large and clear field of vision when the mud starts spraying. The canisters can be clipped directly on the WORKS lens pins for quick and easy installation, with no tools required. Tear-offs can then be easily installed on the same pins for extra vision protection.

FRAME TECHNOLOGIES

PROSPECT

OPTIMAL PERFORMANCE WITH ENDURO-SPECIFIC FEATURES

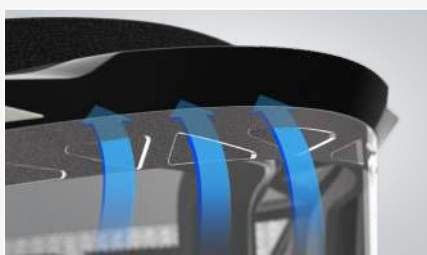

ENDURO

Designed to perform in the toughest conditions on the planet, the Prospect Enduro features a double lens and an air control ventilation system to ensure your vision remains crystal clear no matter where you find yourself riding.

DOUBLE LENS

Spacer Foam and Double Lens block moisture and eliminate fogging while allowing for optimal breathability.

AIR CONTROL SYSTEM (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle resulting in a sophisticated ventilation system against condensation and fogging.

ANTI-FOG ON INNER LENS

Enduro double lenses include a soft inner lens which features a stronger built-in anti-fog solution than any other SCOTT lens. When riding Enduro races fog should never be an obstacle.

The SCOTT Prospect Enduro Goggle is designed specifically for the modern enduro rider. Boasting the same great features as the Prospect, it also comes with a double lens with Air Control System that prevents fogging and gives the enduro rider extra-clear vision in low-speed situations. In addition, it features an innovative SCOTT Lens Lock System and NoSweat face foam. To avoid slipping of the goggle, it is equipped with an extra-wide, no-slip silicone strap. This strap, together with the articulated outriggers, highly contribute to the improved helmet integration.

FRAME TECHNOLOGIES

- Lens Lock System

SCOTT PROSPECT ENDURO LIGHT SENSITIVE GOGGLE

272824

The SCOTT Prospect Enduro Light Sensitive Goggle boasts the same great features as the Prospect Enduro Goggle: a large field of vision, Lens Lock System, NoSweat face foam, pivoting outriggers, double lens with Air Control System and much more. What makes this goggle so special is the Light Sensitive double lens, which adapts automatically to sunlight intensity. With this lens, there's no question you're equipped for all light conditions.

PROSPECT

DESIGNED TO DEFEND YOUR VISION FROM THE SMALLEST GRAINS OF SAND

SAND DUST LS

In the desert or on the beach, the Prospect Sand Dust LS is constructed with a specifically engineered foam that ensures the sand stays out of your eyes. Paired with a Light Sensitive lens which adapts to sunlight intensity, this is the ultimate goggle for all sand-based riding.

SMALL PARTICLE VENT FOAM MEMBRANE

To avoid any sand or dust-sized particles getting into the frame, all SCOTT Sand Dust goggles are mounted with a closed cell membrane instead of the traditional open cell vent foam. This technology guarantees perfect isolation from the elements.

LIGHT SENSITIVE LENS CAT. 1-2

SCOTT Light Sensitive lenses engage photochromic technology and adapt automatically to sunlight intensity. These lenses react to light changes and within seconds the lens will darken when the brightness gets stronger or lighten when the sunlight gets weaker.

LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

The SCOTT Prospect Sand Dust Light Sensitive Goggle has been specifically designed for use on beaches, in deserts and out in the dunes. The already exceptional features of the Prospect goggle are paired with the revolutionary Dust Catcher foam. Ride freely without worrying about even the smallest dust or sand particles getting inside your goggles. This assurance, combined with a large field of vision, the innovative SCOTT Lens Lock System, articulated outriggers and a Light Sensitive lens that adapts automatically to sunlight, are everything you need for your next ride.

FURY.

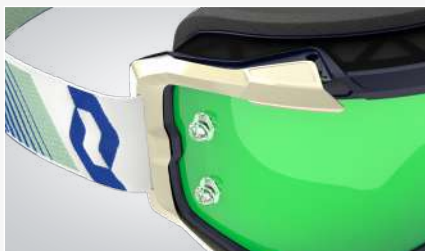

LOW PROFILE, HIGH PERFORMANCE

The younger brother of the Prospect, the Fury is a lightweight option that doesn't compromise on safety or style. Pushing the limits of field of vision, comfort and lens retention, the Fury is a perfect choice for all levels of rider.

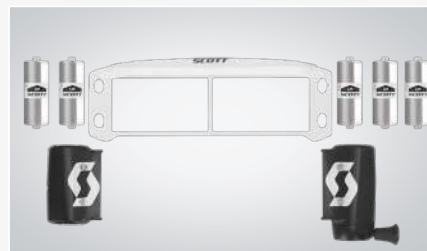

MASSIVE FIELD OF VISION

Carrying the same lens as the Prospect goggle, we are proud to say that the Fury offers the largest field of vision on the market. The large lens combined with a thin frame construction brings the lens closer to your eyes, maximizing the overall field of vision.

LENS LOCK SYSTEM

Transferred from the Prospect to the Fury Goggle, our innovative Lens Lock System is another highlight that distinguishes this new goggle. With the Lens Lock System it guarantees you the safest lens retention on the market and enables you to change your lens anywhere anytime.

PROSPECT ACCESSORY COMPATIBLE

WFS 50, lens, anti-stick grid or mudflap – any of these accessories can be used for both our Fury and Prospect Goggle. This makes it very convenient to switch from one goggle to the other without worrying about the right accessories.

The SCOTT Fury Goggle is guaranteed to shake things up. Shaped by innovation, technology and design, the Fury follows in the steps of our flagship goggle, the Prospect. Featuring our proven SCOTT Lens Lock System, 3-layer face foam, no-slip silicone strap, and supporting all the same accessories as the Prospect, this low-profile, high-performance motocross goggle was fully developed to Defend Your Vision in any and all conditions.

The SCOTT Fury WFS comes equipped with all the same great features as the standard Fury. This upgraded version comes with a pre-installed WFS50 roll-off system, offering a large, clear field of vision even in the muddiest conditions. The canisters can be clipped directly on the WORKS pins of the lens, which makes their installation much easier and less time-consuming. It takes almost no effort as there are no tools required. It also makes the switch from roll-off to tear-off simple and fast. The improved, transparent anti-stick grid offers a better field of vision, easier installation in the canisters, better sliding on the lens and better sealing with the lens at the top.

SPLIT

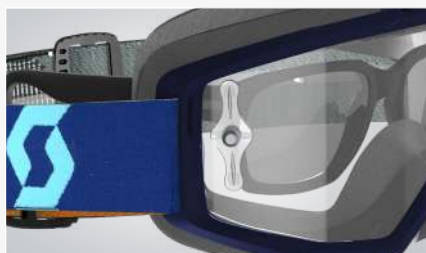

THE ULTIMATE GOGGLE FOR WEARING OVER THE GLASSES

The new and fully updated SCOTT Split OTG Goggle is the ultimate goggle for wearing over the glasses. A new integrated RAM Air System dictates the flow of air coming into the goggle through the top spoiler to ensure the lenses don't steam up and stay crystal clear all day long.

INTEGRATED RAM AIR SYSTEM

This innovative new intake system is engineered specifically to increase air-flow to reduce the risk of your glasses or goggle lenses fogging up.

OPTIMIZED FOR PRESCRIPTION GLASSES

Specially designed to offer maximum comfort and an ergonomic, secure fit when worn over your regular prescription glasses.

3-LAYER FACE FOAM

SCOTT's 3-Layer Face Foam incorporates three layers of foam to provide maximum comfort and help wick away moisture.

SCOTT'S OFF-ROAD INJECTED MOLDED AMPLIFIER LENSES UTILIZE A UNIQUE LIGHT TRANSMISSION CURVE TO OPTIMIZE CONTRAST AND OPTICAL CLARITY.

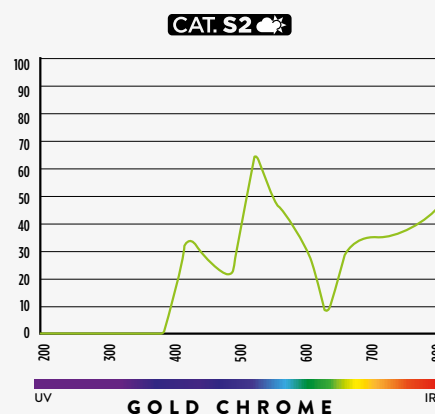

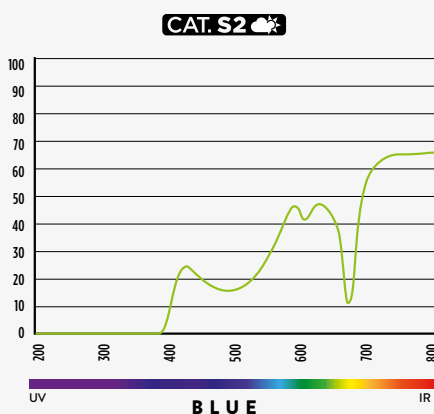

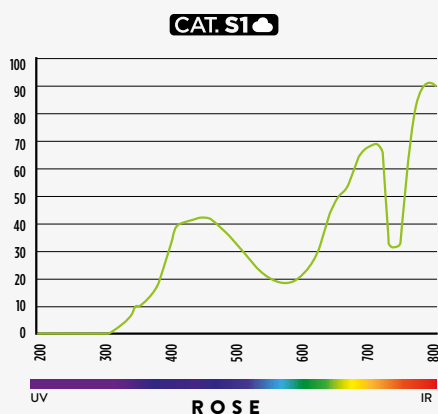

WHAT IS CONTRAST?

The SCOTT Amplifier tint is designed to let through some specific colors to your eye while filtering out others, in order to create a high contrast within the terrain you are looking at.

HOW DOES THE EYE PERCEIVE CONTRAST?

Through years of research we have learnt that our eyes are better at perceiving certain wavelengths than others. The eye can be thought of as the lens of a camera. There are parts and mechanisms inside the eye that control the vital role in our ability to see things in focus, color, darkness and brightness. By controlling what is let through the Amplifier lens, we can control how the external environment is perceived.

SCOTT AMPLIFIER TECHNOLOGY
IS AVAILABLE IN VARIOUS
OFF-ROAD LENS OPTIONS

CONTRAST AMPLIFIED

SCOTT sets the industry standard for contrast enhancing optics with its patented amplifier lens technology. The secret to amplifier technology is its ability to add contrast while increasing clarity and definition in all racing conditions.

MAIN BENEFITS

- Allows you to see contours, ruts and transitions in the dirt in ultra-high-definition
- Works for both motocross and enduro
- Builds speed and confidence through improved visual clarity

SCOTT PROSPECT AMPLIFIER TECHNOLOGY LINE UP 2023

SCOTT LIGHT SENSITIVE LENSES

ONE LENS FOR EVERY LIGHT CONDITION

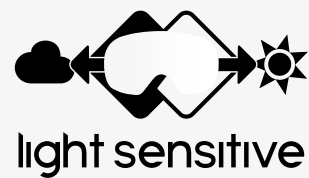

SCOTT's Light Sensitive lenses engage photo-chromic technology and adapt automatically to sunlight intensity to give you ultimate vision on the track regardless of the light conditions. These lenses automatically react to light changes and within seconds the lens will either darken when the brightness gets stronger or lighten when the sunlight gets weaker. This means going from bright sun into sudden shade has never been easier.

SCOTT WORKS LENSES

SCOTT'S INNOVATIVE WORKS LENSES SET OUR GOGGLES APART FROM THE REST.

Featuring SCOTT's historic technology, the WORKS lens enables the rider to use the same lens for both tear-offs and roll-offs. With these do-it-all lenses, you can be fully prepared for whatever the weather might throw at you. Thanks to the factory-installed WORKS pins, scott roll-off systems or tear-offs can be easily and quickly mounted and removed depending on the race profile and track conditions.

4-PIN WORKS LENSES

For the larger lens on the SCOTT Prospect and Fury goggles, the 4 pins provide more stability for the tear-offs and the WFS50. With this system the accessories will always remain tight to the lens and provide the rider with a better vision.

FRAME & FOAM TECHNOLOGIES

Foam Technologies

NO SWEAT FACE FOAM

SCOTT's unique NoSweat Face Foam consists of a microfiber layer that is extremely water absorbent. It soaks up moisture fast and avoids sweat getting into your eyes or inside the goggle.

3 LAYER FACE FOAM

SCOTT's three-layer, open-celled face foam with fleece has excellent moisture-absorbing properties, and offers increased levels of comfort and an improved fit thanks to the extra layer of protective foam.

2 LAYER FACE FOAM

SCOTT's two-layer, open-celled face foam with fleece has excellent moisture-absorbing and thermal properties, ensuring that you stay warm, dry, and comfortable all day.

1 LAYER FACE FOAM

Thanks to the large, soft, single density face foam, a precise fit around facial features is provided while sealing out the elements.

DUSTCATCHER VENT FOAM

Dustcatcher vent foam is a purpose-engineered vent foam that has finer holes than standard to stop dust getting through the foam and into your goggles and eyes. Essential for any form of desert, beach or sand racing.

Frame Technologies

SILICONE STRAP

Adhered silicone strips on the inside of the goggle strap ensures the goggles stay in place on your helmet.

LENS LOCK

The SCOTT Lens Lock System has been designed to guarantee the safest lens retention on the market. To avoid the lens coming out, this innovative Lens Lock System features four locking pins that go through the lens instead of grabbing it from the top.

ARTICULATING OUTRIGGERS

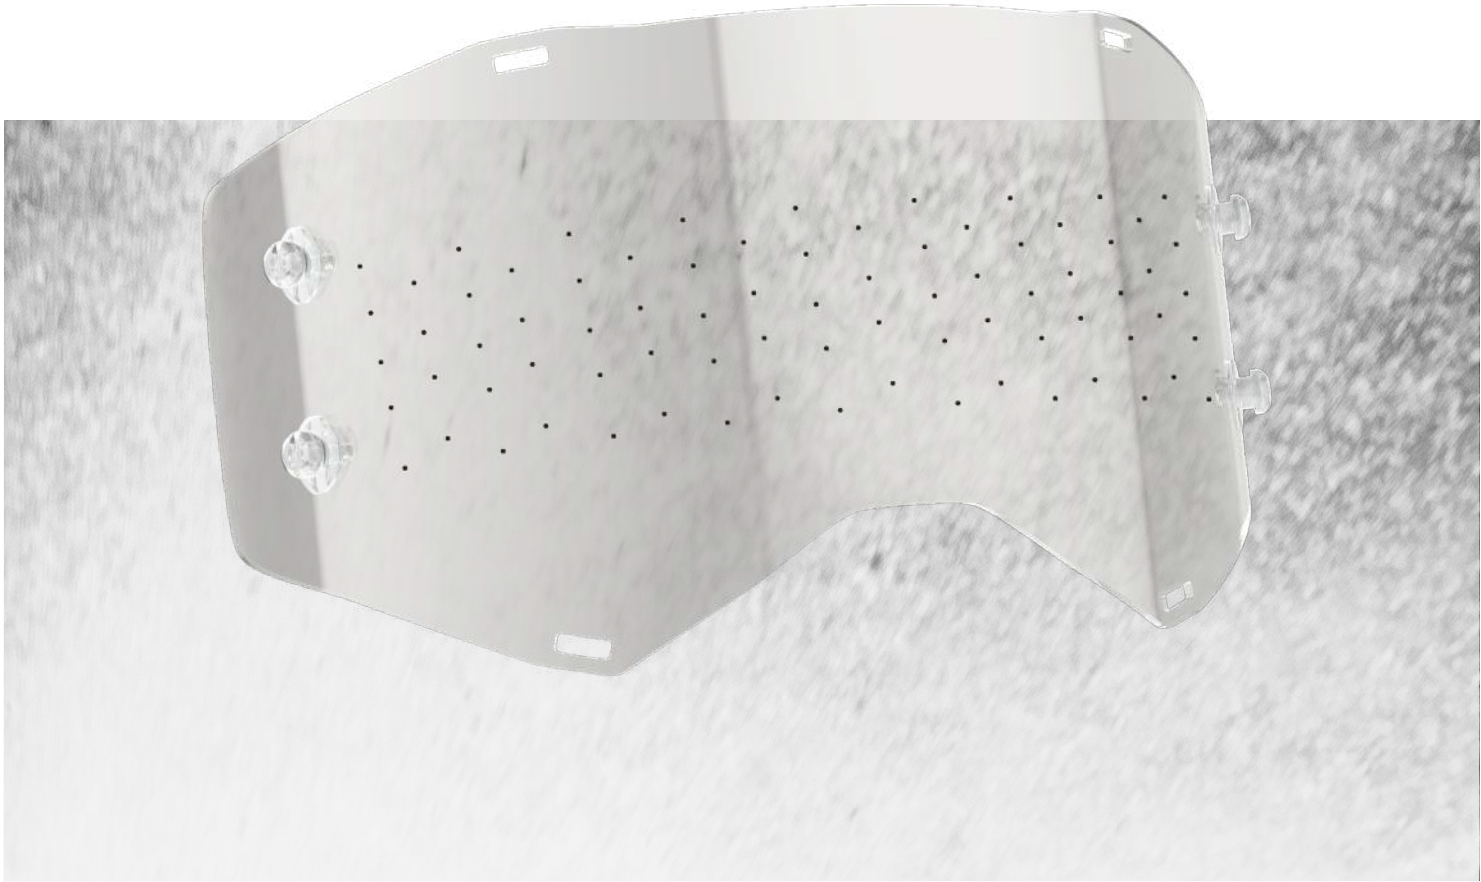

The Prospect has two pivoting outriggers that adapt to any helmet shape and size. The resulting pressure created by the goggle on the rider's face provides a complete and consistent seal.

RAM AIR

RAM (Revolutionary Air Management) System increases the airflow inside the goggle frame to avoid moisture on the lens.

LENS TECHNOLOGIES

Lens Technologies

LIGHT SENSITIVE

SCOTT Light Sensitive lenses engage photochromic technology and adapt automatically to sunlight intensity. Light Sensitive lenses react to light changes and within seconds the lens will darken if the sunlight gets stronger or lighten if the sunlight gets weaker.

AMPLIFIER

Amplifier is a technology to optimize visual contrast and clarity. The unique aspect of Amplifier is the shape of the visible light transmission curve, optimizing three specific wave lengths which are the most important for the human eye to enhance contrast and clarity.

ANTISTICK GRID WITH MUDFLAP

The anti-stick grid with an integrated mudflap provides a clear view throughout the entire ride. The mudflap is made out of a transparent material that offers a larger field of vision in dusty or less extreme conditions.

ANTISTICK DOTS

To ensure the smoothest film transfer possible, anti-stick dots on the lens provide pro-level performance when you need it most.

ACS

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle. The result is a sophisticated ventilation system that helps prevent condensation and fogging.

OTG

OTG goggles offer protection from the elements and an optimized fit for people requiring prescription glasses, thanks to a specific and adapted construction.

SCOTT TRUEVIEW

SCOTT TruView lenses are lightweight and block 100% of harmful UV rays.

NOFOG

SCOTT lenses undergo a permanent NoFog™ treatment process to prevent condensation and fogging.

IMPACT RESISTANCE

In order to ensure that riders are safe from the impact of pebbles and flying debris, all SCOTT lenses not only meet, but exceed the required impact resistance standards required for MX lenses.

CHROME COATING

SCOTT chrome coating offers unmatched style for your goggles while controlling light transmittance.

UV PROTECTION

100% UV Protection All SCOTT lenses are optically engineered to screen out 100% of harmful UVA/UVB rays.

SCOTT WFS50 ROLL-OFF SYSTEM

DEFEND YOUR VISION

The SCOTT 50mm Works Film System (WFS50) is the ultimate solution to keeping your vision clear in muddy conditions. A larger than average film, easy to install canisters and intelligent design makes the highly reliable WFS50 roll-off system the no. 1 choice of pro and amateur riders alike.

INTEGRATED CANISTER DESIGN

Fits perfectly with Prospect outriggers

LARGE 50 MM FILM

Increased visibility

ANTISTICK GRID AND TRANSPARENT MUDFLAP

Increased performance & protection

CLICK ON CANISTERS

Quick and easy to install

50 PULLS

Ample roll for a long race

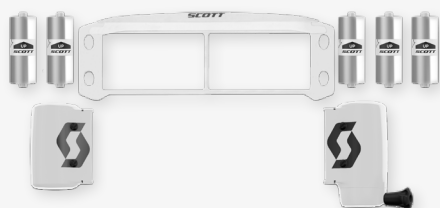

ULTRA-DURABLE HOUSING

Stops the film from unraveling mid-race

PROTECTION TECHNOLOGIES

The new protection standard

THE SAFER PROTECTION

SCOTT AirFlex protection excels with a SCOTT exclusive D3O® design that protects what matters. Improved protection along the spine with extended support in the crucial lumbar area reduces the risk of injuries by absorbing any type of impact. All of our protection are certified according to current European standards – EN 1621-2. We are proud to offer protection that goes beyond this standard and elevates your safety by covering more of your crucial body parts.

VENTILATION. MAXIMUM AIRFLOW

Gone are the times when back protectors were adding heat. With strategically placed air vents, AirFlex controls body temperature by allowing maximum airflow. Keep your body at the right temperature in every moment.

COMFORT THROUGH FLEXIBILITY

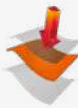

Performing at your best requires maximum freedom of movement. While protecting against any energy impact, AirFlex is light and follows your every movement. Soft as a marshmallow, but hard as a diamond in the event of an impact, AirFlex with D3O® feels like a second skin that adapts to your body.

Technology

D3O® IMPACT PROTECTION TECHNOLOGY

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

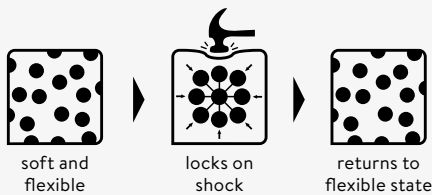

SHOCK ABSORPTION

Unique technology that focuses on energy absorption and protection.

LIGHT & FLEXIBLE

Provides maximum comfort and protection at the same time.

CE CERTIFIED

Integrated D3O® protectors allow for highest levels of safety according to CE EN 1621.

Features

SOFT-SHELL

Soft-shell construction offers more flexibility and comfort.

EASILY WASHABLE

Inserted protective plate is easily removable and washable.

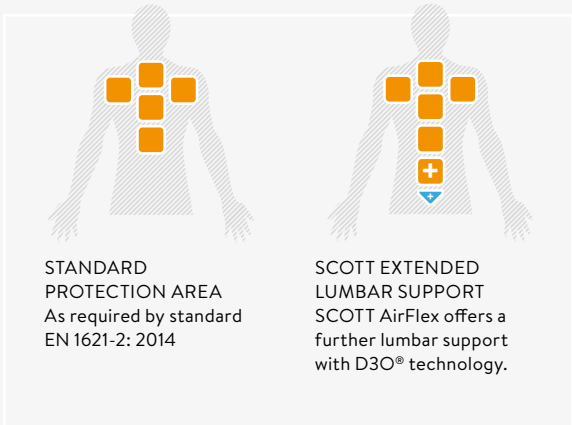

BACK-PACK FRIENDLY

Some of our plates are so thin that you can even wear a backpack over them.

LUMBAR SUPPORT

For improved protection of your back and spine, with extended support in the crucial lumbar area.

PROTECTION BEYOND STANDARDS EXTENDED LUMBAR SUPPORT

For improved protection of your back and spine, with extended support in the crucial lumbar area. We are proud to offer protection that goes beyond the standard and elevates your safety by covering more of your crucial body parts.

CERTIFICATION

All our protectors are certified according to current European standards - EN 1621-2: 2014.

LEVEL 1

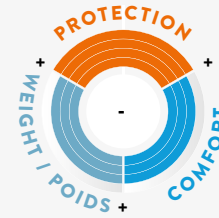

The innovative AirFlex plate is made with an exclusive D3O® material for ultimate protective performance. Strategically placed vents and a flexible design mean optimal airflow and maximum comfort.

Withstands 5kg impacts with no more than 18KN of force transmitted.

PERFECT FOR: Versatile riders who seek a lightweight protector

LEVEL 2

Level 2 protection offers twice the protection of Level 1.

Level 2 Withstands 5kg impacts with no more than 9KN of force transmitted. The EN 1621-2 test drops a 5kg weight on our protector from a 1m height. By measuring the residual force, we design a protector to be Level 1 or Level 2.

PERFECT FOR: Riders in exposed terrain seeking maximum protection & for those looking to comply with the strictest racing rules and legislation.

SOFTCON AIR BODY ARMOR

WELCOME TO THE FUTURE OF BODY ARMOR

Designed for the modern motocross racer that demands low-profile, high performance protection, the certified Softcon Air Body Armor sets new standards in both ventilation and freedom of movement.

VENTILATED SOFT PROTECTIVE SCOTT AIR-FLEX BACK AND CHEST PLATES
FEATURING D3O® TECHNOLOGY

ANTI-MOISTURE INNER PANELS IN
3D MESH

ADJUSTABLE SIDE STRAPS

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection.

The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

Performing at your best requires maximum freedom of movement. While protecting against any energy impact, AirFlex is light and follows your every movement. Soft as a marshmallow, but as hard as a diamond in case of an impact, AirFlex with D3O® feels like a second skin that adapts to your body.

We take safety seriously and the protection team at SCOTT is passionate about it. We see it as our key goal of who we are and the protection that we produce. We are proud that our full protection range is equipped with the latest safety technologies.

The SCOTT Softcon Air Body Armor offers flexible, protective and breathable body armor like never before. The state-of-the-art soft ventilated D3O® plate design offers fully certified levels of safety and maximum freedom of movement, whilst simultaneously providing greatly increased airflow to the body. The breathable protection plates combined with strategically placed anti-moisture panels mean this body armor works hard to keep you cool and dry when the action heats up. Designed for the rider who wants a flexible, low-profile design without compromising on safety, the Softcon Air Body Armor sets new standards in body protection.

SOFTCON JUNIOR PROTECTION COLLECTION

PROTECT WHAT MATTERS

SCOTT's range of Softcon Junior protection sets new standards in kids off-road protection. Constructed using our innovative AirFlex technology, the Softcon Junior range provides users with certified protection as well as market-leading ventilation, freedom of movement and comfort.

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection.

The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

Performing at your best requires maximum freedom of movement. While protecting against any energy impact, AirFlex is light and follows your every movement. Soft as a marshmallow, but as hard as a diamond in case of an impact, AirFlex with D3O® feels like a second skin that adapts to your body.

We take safety seriously and the protection team at SCOTT is passionate about it. We see it as our key goal of who we are and the protection that we produce. We are proud that our full protection range is equipped with the latest safety technologies.

SCOTT SOFTCON JUNIOR JACKET PROTECTOR 278467

The SCOTT Softcon Junior Jacket Protector sets new standards in kids' upper-body protection. The revolutionary soft ventilated D3O® plate design offers fully certified levels of safety and maximum freedom of movement, whilst simultaneously providing greatly increased airflow to the body. The breathable protection plates combined with strategically placed anti-moisture panels mean this jacket works hard to keep you cool and dry when the action heats up. Designed for the youth rider who wants fully customizable upper-body protection that doesn't restrict their riding, the Softcon Junior Jacket Protector is the best option out there.

SCOTT X-PLORE JACKET

A HIGH PERFORMANCE ENDURO JACKET THAT WILL PERFORM IN ALL CONDITIONS.

SCOTT X-PLORE JACKET

292381

The SCOTT X-Plore Jacket has been engineered to provide riders with a versatile, high performance enduro jacket that will perform in all conditions. Super durable Ripstop construction with ballistic Nylon reinforcements means this jacket is sure to stand the test of time. Removable sleeves allow you to quickly turn this jacket into a vest and a strategic ventilation system with ports on the front and back offers fully customized climate control. Multiple pockets offer plenty of intelligent storage for your essentials, whilst integrated hydration ports keep everything neat and tidy when riding with a hydration pack. All this and more makes the SCOTT X-Plore Jacket an essential addition to your enduro gear bag.

CONSTRUCTION: 600d PU coated Ripstop chassis

1680 Ballistic Nylon reinforcements

PU coated zippers

COMPOSITION: 100% Polyester

FIT: Regular

SIZE: S-XXXL

FEATURES:

- Ripstop wind resistant chassis
- Reinforced elbow and shoulders
- Zip off removable sleeves
- Rear zipped pocket transforms into wearable jacket storage
- 5 pockets
- Strategic front and rear ventilation system
- Integrated hydration hose ports
- Reflective pannels on collar and sleeves

* PLEASE REFER TO THE DOCUMENTS TAB FOR HAND MESUREMENT GUIDELINE

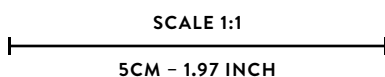

HAND'S LENGTH

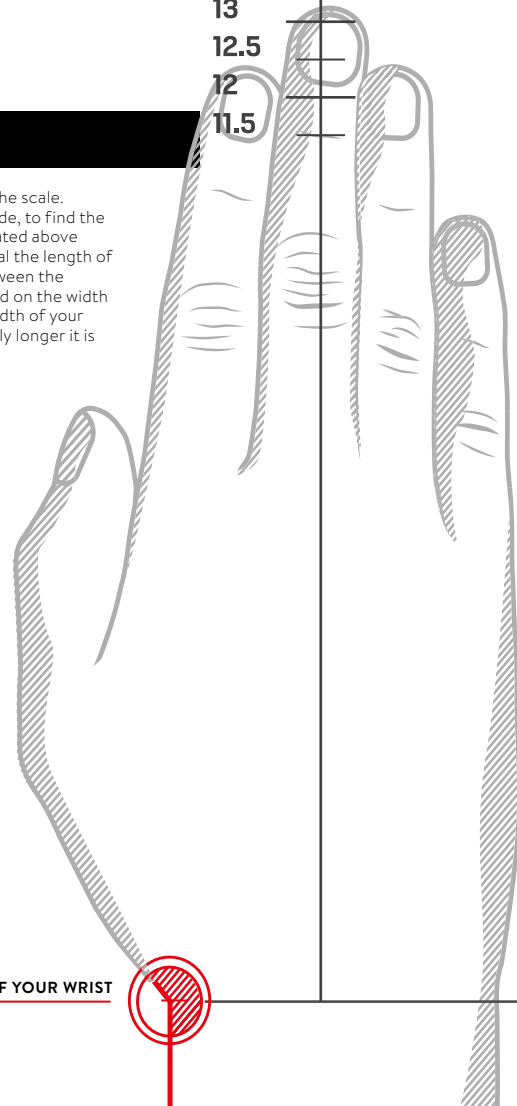

Place your right hand as shown on the scale. Position your wrist, on the thumb side, to find the correct position. The number indicated above your middle finger hash marks reveal the length of your fingers. If your finger is in between the hash marks you should choose based on the width of your hand. The main size is the width of your hand, but if your hand is considerably longer it is best to choose the larger size.

HAND'S WIDTH

Place your right hand as shown. The lines on the left should match to your index finger and thumb. If your hand lays flat as mentioned on the scale you can read your correct size on the right side of your hand. If you're in between two sizes it's better to take the bigger one.

MATCH THE EDGE OF YOUR WRIST

OFFROAD SOCKS

SCOTT KNEE BRACE SOCKS

208604

black
0001

Specifically designed to be worn with knee braces or knee pads, the SCOTT Knee Brace Socks are manufactured using technical materials and construction methods to offer motocross and off-road riders superior and long-lasting in-boot comfort. A lightweight, stretchy and ventilated upper combined with a low-profile, padded and form-fitting lower means these moto socks provide the perfect combination of comfort and performance for long days on the track or trail. Strong top-section elastic makes sure everything will stay in place no matter how many laps you put in.

SIZE: S-XL

- FEATURES:
- Full-length knee brace socks
 - Mesh back panel for ventilation
 - Extra-long design for added comfort
 - Thin and lightweight construction

SCOTT MID LONG CAMO SOCK

292918

dark grey/white
1067

The SCOTT Mid Long Camo socks have been designed with a thin construction for a cool and comfortable fit. These technical motocross socks feature strategic padding on the sole of the foot and around your ankles, as well as arch support for ultimate comfort and stability inside your motocross boots. Finished off with a cool camo graphic, the SCOTT Mid Long MX socks will keep you charging lap after lap.

FIT: slim
SIZE: S-XL

- FEATURES:
- Thin construction for a cool comfortable fit
 - Anatomical shape
 - Arch support

OFFROAD GRIPS

SCOTT LOCK ON GRIPS

CONTROL MATTERS

SCOTT Lock On Grips take rider control to the next level. Featuring the latest technologies and premium features, these grips offer riders the same pro-level performance as our traditional grips, with the extra benefit of quick and easy installation.

IMPROVED SAFETY

Thanks to our premium alloy clamps, SCOTT Lock On Grips will stay in place no matter what. Once locked in place, there is no chance of the grips slipping on the handlebar.

VIBRATION REDUCTION TECHNOLOGY

Vibration reduction in our clutch-side Lock On Grip is achieved through our strategically windowed core. The window is positioned so that it is in line with riders hand when in the riding position. Even though you can't feel the window when mounted on a handlebar, the soft material which fills out the window greatly reduces vibrations compared to a standard solid core.

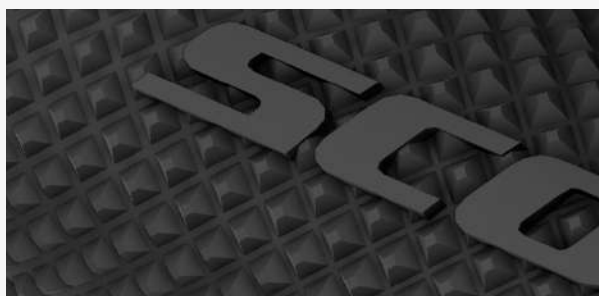

FAST AND EASY INSTALLATION

With the SCOTT Lock On Grips there is no need for safety wire or messy grip glue. There are 24 locking points, offering maximum options to place the grips in exactly the position you like. Installation is super-fast and there is no time wasting whilst you wait for glue to dry after installation. Simply lock on and ride!

CAM COMPATIBILITY

Our Lock On Grips are supplied with multiple cam sets to fit the most common models of dirt bike. Simply select the right Cam for your bike from our Cam Compatibility Table, install it and you're ready to go.

PREMIUM RUBBER

By using our tried and tested SXII rubber grip pattern, the SCOTT Lock On Grips offer riders maximum control and longevity in all conditions.

SCOTT SX II LOCK ON GRIP + CAM SET

292452

The SCOTT SXII Lock On Grips are the result of over 50 years of SCOTT's experience making market-leading motocross grips. Capitalizing on this experience and technical know-how, the SCOTT engineers used the latest cutting-edge materials and manufacturing processes to create a motocross grip that offers all the control and comfort you need, whilst also making installation a breeze. No grip glue or wire is required to mount the grips and any form of grip slippage is completely eliminated. With our tried and trusted SXII diamond rubber pattern combined with vibration reducing construction, the SXII Lock On grips will provide a premium riding experience for any level of rider.

FEATURES:

- Lock On mechanism
- Anodized Alloy Clamp
- Cam set included for most 2 & 4 stroke bikes
- Quick and easy installation without glue or wire
- Double density grip
- Anti-vibration construction
- Full Diamond design
- Firm density inner compound
- Soft density outer diamond pattern

SCOTT DIAMOND + DONUT GRIP

219626

The SCOTT Diamond Grip is a triple density grip that focuses on reducing arm fatigue without sacrificing control. The medium density waffle pattern delivers maximum comfort and durability while the soft density diamond pattern area reduces vibration, arm pump and fatigue. The firm density end cap offers more durability. Included Neoprene grip donuts help reduce abrasion and thumb blisters.

FEATURES:

- Triple density grip
- Full Waffle design
- Integrated safety wire channel
- Grip donut included

SCOTT PACK ROAMER HYDRO 8

292401

The SCOTT Roamer Hydro 8 Pack is a lightweight hydration pack specifically designed for the modern enduro rider. It has all the features you need and none that you don't. With a 2L bladder included, an insulated bladder compartment and adjustable tube fixation points, all you need to do is add water and hit the trail! A highly adjustable multi-point strap fixing system means the pack will always stay in place on your back no matter how gnarly the terrain gets. Compact pockets also give you space to stow your extra essentials whilst durable materials and construction will make sure the Roamer Hydro 8 Pack will hold up under even the most demanding of conditions.

CONSTRUCTION: H400D x 400D PU-coated

COMPOSITION: SHELL FABRIC: 100% Polyamide, LINING: 100% Polyester

DIMENSIONS: HEIGHT: 46cm, WIDTH: 27cm, DEPTH: 9cm

VOLUME: 8L

APPROX. WEIGHT: 0.37kg

FEATURES:

- 2L bladder included
- Separate insulated bladder compartment
- Adjustable tube fixation
- 4-Point fit adjustment

SCOTT PACK RADIATOR 12

292400

The SCOTT Radiator 12 Pack is the ultimate piece of kit for enduro and off-road riding. The tactical-style design means that as well as having ample space in the main compartment, there are also two generous pockets integrated into the front straps for extra essentials that need quick and easy access. With a separate bladder compartment and adjustable tube fixation points, this pack is fully hydro-ready for those who want to add a bladder. A highly adjustable strap system means you can customize the fit perfectly whilst durable materials and construction will make sure the Radiator 12 Pack will hold up under even the most demanding of conditions.

CONSTRUCTION: H400D x 400D PU-coated

COMPOSITION: SHELL FABRIC: 100% Polyamide, LINING: 100% Polyester

DIMENSIONS: HEIGHT: 46cm, WIDTH: 27cm, DEPTH: 14cm

VOLUME: 12L

APPROX. WEIGHT: 0.73kg

FEATURES:

- Separate bladder compartment
- Adjustable tube fixation
- 6-Point fit adjustment
- Spacious main compartment
- Front compartment for tools
- Separate goggle pocket

SCOTT WHEEL DUFFLE 110 BAG

250079

With a massive main compartment and a separate compartment the SCOTT Wheel Duffle 110 offers plenty of space for all your gear. Its abrasion-resistant and water-repellent fabric paired with high-quality shock-absorbing wheels let you overcome any obstacles or muddy terrain. Because the SCOTT duffle is completely foldable, the integrated stuff bag is a convenient option for compressed storage or a smart place to stash those muddy shoes or that dirty laundry while travelling. One nifty feature of the duffle is that you can adjust the size of the bag to whatever equipment you are carrying - that way you can make sure the bag remains rigid and your gear does not get dragged along the ground.

CONSTRUCTION: 900D Reverse PU

COMPOSITION: SHELL FABRIC: 100% Polyester

LINING: 100% Polyester

DIMENSIONS: HEIGHT: 85cm, WIDTH: 43cm, DEPTH: 36cm

VOLUME: 110L

APPROX. WEIGHT: 2200g

FEATURES:

- Multiple carrying options (top handle, shoulder straps)
- Separate compartment for muddy gear
- Abrasion-resistant, water-repellent fabric
- Large, solid & absorbing wheels
- Stuff bag for compressed storage option or as a smart place to stash muddy shoes

► PRIORITY GTX

ADVENTURE IS OUT THERE

NO SHORTCUTS

The top of the line, SCOTT Priority GTX is made for 3 seasons featuring wind- and waterproof 3-layer GORE-TEX construction and Pittards® leather reinforcements. Equipped with D3O® protectors we take care of your safety and allow you to push your limits.

PROTECTED BY
D3O®

APPAREL TECHNOLOGIES

Our research and development team works with leading manufacturers around the world to deliver revolutionary fabric technologies that protect you from the elements, give more comfort to your body and maximize your enjoyment of outdoor activities, 365 days a year.

FABRIC TECHNOLOGIES

GUARANTEED TO KEEP YOU DRY™ PROMISE

For more than 30 years, GORE-TEX products have been delivering comfort and protection so you can enjoy your outdoor activities with confidence. The GORE-TEX membrane is integrated in the garment between the outer material and the lining. It is a perfect barrier to rain and wind, while allowing perspiration to escape. Even in cases of extreme physical exertion, humidity will be transported to the outside of the clothing system and you always stay comfortable in your SCOTT garments engineered with GORE-TEX products.

A DIGITAL LEATHER PRODUCED IN THE UK
Motorcyclists worldwide demand the highest level of performance from their protective equipment.

DEXFIL® Insulation

Thin and lightweight, Dexfil insulation provides superior insulation by trapping high levels of still air in each given space. The incredibly fine denier fabric creates an extraordinary insulating effect that retains its shape and insulating properties even after repeated cleaning.

Little Parts. Big Difference.™

YKK WATERR ZIPPER

WaterR is a durable water-repellent treatment used to enhance YKK's range of aqua zippers. YKK's WaterR treated items are available for a variety of functions in both Coil and Vislon® and helps to reduce water seepage and wicking in outer shell garments and equipment. All our YKK WaterR zippers passed the GORE-TEX approval for SMB garments.

Little Parts. Big Difference.™

YKK AQUAGUARD® ZIPPER

AquaGuard® is a water-repellent zipper. It is created by laminating PU on the textile tape, the PU layer is acting as a membrane. YKK's AquaGuard® items are available for a variety of functions in both Coil and Vislon®. It is the most commonly used zipper solution for quality rain and wind proof outer shell garments. Unlike standard PU coated items, the superior Aquaguard® range withstands an extensive shower test and does not absorb water.

DRYOSPHERE

DRYOsphere fabrics provide a waterproof/breathable barrier from the elements. A shield against water and wind, DRYOsphere fabric also allows for water vapor to escape from the body, keeping you dry and comfortable in any conditions.

C0 DWR OR PFC-FREE

Perfluorinated and polyfluorinated compounds, also known as PFCs, are a group of fluorinated substances that have long been used to provide durable water repellence for clothing in the outdoor industry. They are very bad for the environment because they are very stable and do not easily break down in nature, which is why PFC-free/C0 DWR treatments have been developed. These are less durable but more sustainable.

ADVENTURE GLOVES

THE FULL SCOTT ADVENTURE APPAREL LINE IS
EN 17092-3:2020, CLASS AA CERTIFIED

ASSAULT PRO GLOVES

THE PERFECT BLEND OF PROTECTION AND PERFORMANCE

The Assault Pro glove comes locked and loaded with the best tech in the industry. Fully engineered for riders that aren't afraid to attack the road or trail, this highly-durable glove won't let you down.

FULL LEATHER PALM WITH DIGITAL REINFORCEMENT

This combination of classic materials and modern construction methods produces a highly durable, protective glove that will stand the test of time.

ANATOMICAL PALM REINFORCEMENT

An extra layer of comfortable, ergonomic protection keeps your hands in one piece throughout your entire adventure.

CARBON KNUCKLE PROTECTION

Lightweight, flexible and highly protective, this is the ultimate solution to protecting your hands wherever you ride.

SCOTT ASSAULT PRO GLOVE

278616

The SCOTT Assault Pro Glove is a beefed-up version of the already highly-technical Assault glove. Featuring an upgraded, full leather palm with digital reinforcement, palm padding and carbon knuckle protection, this bomb-proof glove means serious business. A Velcro closure system will keep the Assault Pro secure and locked in every time you twist the throttle.

CERTIFICATION LEVEL: CE certified CAT. 2 according to EN 13594 Level 1 (KP)

CONSTRUCTION: BOH: Goatskin leather and Span, **PALM:** Full Goatskin leather, **PALM REINFORCEMENT:** Digital Goatskin leather with Kevlar stitching, **CLOSURE:** Velcro

COMPOSITION: MAIN FABRIC: 70% leather, 15% Polyamide, 10% Polyester, 3% Elastane, 2% Polyurethane

FIT: Slim

SIZE: 2XS-3XL

RANGE OF USE: Sport Adventure

FEATURES:

- Full leather palm with digital reinforcement
- Anatomical palm reinforcement
- Carbon knuckle protection
- Velcro wrist closure

ELECTRONIC DATA INTERCHANGE

WHAT IS EDI – ELECTRONIC DATA INTERCHANGE

Improve your business efficiency and simplify work with SCOTT's electronic data interchange (EDI) SOLUTION. EDI is a solution for computer-to-computer exchange of business documents in a standard electronic format between business partners.

These business documents cover a wide range of options from placing an order, fulfilling the product database with prices, EAN code, product descriptions, or even exchanging electronic invoices, and in some contexts, optionally exchanging stock level information.

TRADITIONAL INFORMATION EXCHANGE

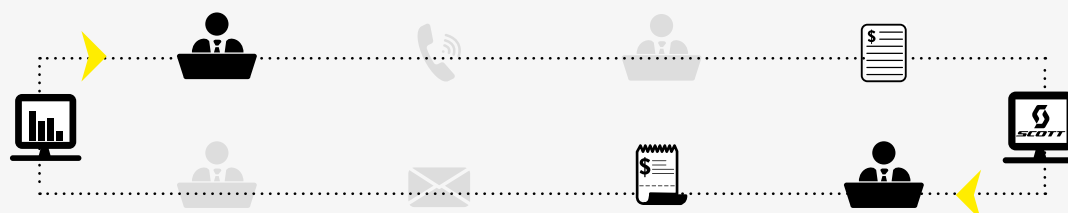

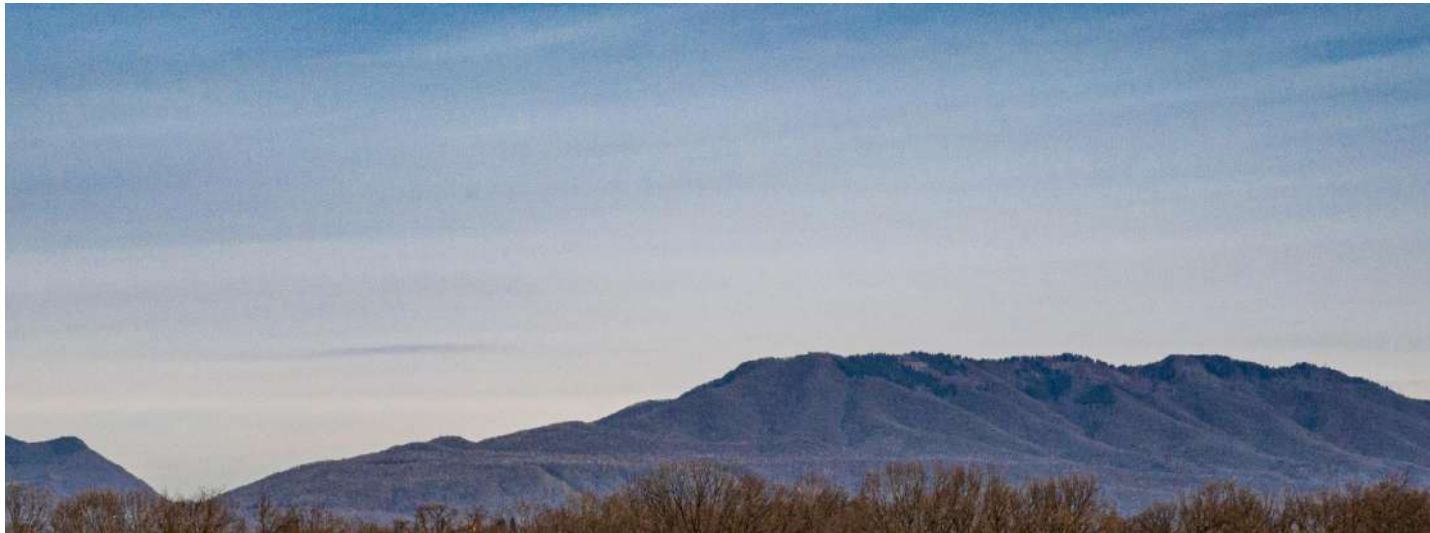

SCOTT EDI SOLUTIONS HELP YOU TO BECOME MORE EFFICIENT

By proceeding with IT connection between our Business Software and your Business Software, both yourself, your collaborators and SCOTT's employees

- ✓ Avoid manual operations
- ✓ Save employees time
- ✓ Avoid human error
- ✓ Simplify business documents and information exchange

WITH EDI AUTOMATIC EXCHANGE

WHO CAN BENEFIT FROM OUR SCOTT EDI SOLUTIONS?

EDI is an electronic format that every business can use, so long as both partners have Business Software compatible with EDI solution.

If you are unsure, contact your IT service provider and ask!

WHAT EDI SOLUTIONS DOES SCOTT OFFER AND HOW COULD I BENEFIT FROM THE SERVICE?

STEP #1

Check with your IT provider if you can handle EDI integration, and what it would cost for you.

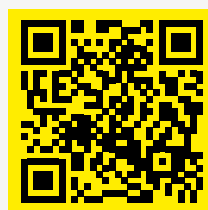

To make the process smoother you can share the technical documentation delivered here:

WWW.SCOTT-SPORTS.COM/EDI

HOW MUCH DOES EDI INTEGRATION COST?

SCOTT offers a range of EDI integration solutions in different data formats. We do not charge anything for the service of integrating with your EDI-ready solution.

The only cost for you would be the cost of enabling EDI capability on your Business software, with your habitual IT service provider.

STEP #2

If your IT Provider confirms your ability to benefit from EDI integration, please contact your usual SCOTT Sales Representative or SCOTT Customer Service, they will deliver all the necessary information for organizing the next steps.
