NO SHORTCUTS

NO SHORTCUTS

Like the modest champion sitting in the corner listening as others spit their egos all over each other, SCOTT quietly lets its achievements, its victories, its skills speak for themselves. We don't make products for those who yearn to be noticed. We make them for those who are going to do what they do whether there's anyone watching or not.

If you're like us, you say what you say, do what you do, ride where you ride because you love it. You do it the right way. You do it for the right reasons.

SCOTT

INNOVATION TECHNOLOGY DESIGN

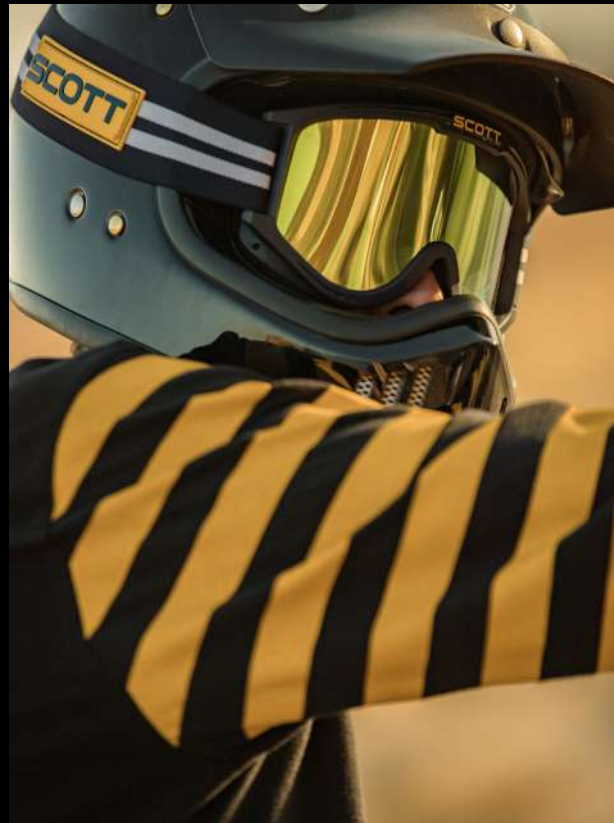

Since 1958 SCOTT Sports has pushed the limits of innovation, technology and design. From the first aluminium ski pole, to the introduction of aero bars and the original plastic moto cross boot, we have led the way in the sports industry.

Combining endless determination to improve with the methodical intricacy put into each product, SCOTT prepares athletes to reach their highest potentials.

The 2024 collection exemplifies this mentality and the unification of our three core philosophies. When you push yourself to the limit SCOTT will stand by you and help you surpass what even you believed was impossible. Let our passion become your passion and

your successes become our successes.

ELEVATE YOUR SAFETY

WITH SCOTT - WE'VE GOT YOU COVERED.

WE DEVELOP, TEST AND RE-TEST IN ORDER TO PERFECT OUR PRODUCTS OVER YEARS AND YEARS. OUR GOGGLES, GEAR AND BODY PROTECTION GIVE YOU THAT EXTRA BIT OF SAFETY IN THOSE CRUCIAL AREAS OF YOUR BODY WHEN IT COUNTS. REGARDLESS IF YOU ARE ON THE TRACK, ON TRAILS OR ANYWHERE ELSE -

"ELEVATE YOUR SAFETY"

WE GO BEYOND THE STANDARDS

SCOTT Sports has pushed the limits of innovation, technology and design and consequently is also pushing the limits of safety. For our Motosports collection, safety has a very high priority. It is not only the human power, but also the raw engine power beneath the rider that demands this extra level of safety. We at SCOTT are proud that our wide protection expertise, gained from our different sport involvements, allows us to push safety beyondstandards.

When you push yourself to the limit SCOTT will stand by you and help you surpass what you believed was possible. We take the statement "Elevate your Safety" very seriously and don't award this accolade to every product. Items in this category provide you with safety above standards. Convince yourself by checking out our range of "Elevate your Safety"

GOGGLES

PROSPECT

THE ULTIMATE GOGGLE TO OPTIMIZE CONTRAST AND CLARITY.

The SCOTT Prospect AMP Goggle not only defends, but also enhances your vision when riding. These lenses are injection molded to provide improved definition and optical clarity, allowing you to see contours and transitions in the dirt like never before.

AMP

AMP TECHNOLOGY

The injected AMP lens increases clarity and contrast to offer riders superior vision over a standard lens.

LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

PIVOTING OUTRIGGERS

The two pivoting outriggers adapt to any helmet shape, providing a good seal on the rider's face.

The SCOTT Prospect AMP Goggle not only defends, but also enhances your vision when riding. These lenses are injection molded to provide improved definition and optical clarity, allowing you to see contours and transitions in the dirt like never before. With other perfected features such as the NoSweat face foam, a maximum field of vision, the innovative SCOTT Lens Lock System, articulating outriggers and much more, the super-stylish SCOTT AMP Prospect Goggle has been engineered to Defend Your Vision no matter how extreme the conditions get.

The SCOTT Prospect Light Sensitive Goggle is an absolute highlight among off-road and motocross goggles. It gives the rider a maximum field of vision and features an innovative SCOTT Lens Lock System that makes the lens stay in the frame no matter what impact is coming from outside. Like the regular Prospect, this model comes with NoSweat face foam. What makes this goggle so special is the Light Sensitive lens, which adapts automatically to sunlight intensity. With this lens you are equipped for any and all light conditions!

 **SCOTT**

PROSPECT

THE NO. 1 CHOICE FOR CHALLENGING CONDITIONS.

When it comes to racing on wet or muddy tracks, the Prospect WFS goggle is the only real choice. The race-proven, precision-engineered WFS50 system combined with the massive field of vision leaves all other goggles scrambling for second place.

CLICK-ON CANISTER

No need for tools, no need to waste time; simply click the canisters onto the WORKS pins and ride. The red lever makes sure the canister is safely attached. This system is the ultimate in WORKS technology.

LARGE 50 MM FILM

The SCOTT WFS50 is the largest film on the market, measuring a massive 50 millimeters. Combined with a thin frame construction, it offers up to 50 clear views even in the most challenging conditions.

ANTI-STICK GRID AND TRANSPARENT MUDFLAP

A large film requires an optimized anti-stick grid with mudflap. A thin vertical line has been added in the middle of the grid to make sure the film never sticks to the lens.

The SCOTT Prospect WFS Goggle is the perfect solution for racing in wet and muddy conditions. It comes equipped with a WFS50 roll-off system for a large and clear field of vision when the mud starts spraying. The canisters can be clipped directly on the WORKS lens pins for quick and easy installation, with no tools required. Tear-offs can then be easily installed on the same pins for extra vision protection. The transparent anti-stick grid offers a superior field of vision, smooth sliding on the lens and a better sealing with the lens at the top.

FRAME TECHNOLOGIES

- WFS50 Roll-off system
- SCOTT anti-stick grid with mudflap
- Lens Lock System
- NoSweat 3-layer molded face foam
- Articulated outriggers
- Extra wide no-slip silicone strap

LENS TECHNOLOGIES

PROSPECT

A PRO-LEVEL GOGGLE FOR RIDERS THAT DEMAND THE BEST.

Previously only available to our pro team riders, the SCOTT engineers have spared no expense in their quest to make the Prospect Super WFS the ultimate motocross racing goggle. With exclusive features and premium components, this goggle is as good as it gets.

NO-SLIP SILICONE STRAP

LENS LOCK SYSTEM

LARGE 50 MM FILM

50MM STRAP

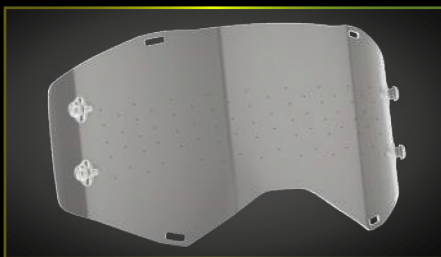

CLICK-ON CANISTER

NO SWEAT SUPER SOFT FOAM

DOUBLE LENS

Spacer Foam and Double Lens block moisture and eliminate fogging while allowing for optimal breathability.

PERFORATED ANTI-STICK DOTS ON LENS

To ensure the smoothest film transfer possible, anti-stick dots on the lens provide pro-level performance when you need it most.

WFS MUDFLAP WITH SEALING TAPE

Specifically designed to create the ultimate seal to keep out any unwanted water drops.

The SCOTT Prospect Super WFS is the ultimate motocross racing goggle. It possesses the same great features as the Prospect WFS, but the Super WFS version features a double WORKS lens with the unique addition of premium anti-stick dots for hyper-smooth sliding action and an upgraded mudflap with sealing tape for maximum performance. It comes equipped with a WFS50 roll-off system for a large and clear field of vision when the mud starts spraying. The canisters can be clipped directly on the WORKS lens pins for quick and easy installation, with no tools required. Tear-offs can then be easily installed on the same pins for extra vision protection.

PROSPECT

OPTIMAL PERFORMANCE WITH ENDURO-SPECIFIC FEATURES.

Designed to perform in the toughest conditions on the planet, the Prospect Enduro features a double lens and an air control ventilation system to ensure your vision remains crystal clear no matter where you find yourself riding.

DOUBLE LENS

Spacer Foam and Double Lens block moisture and eliminate fogging while allowing for optimal breathability.

AIR CONTROL SYSTEM (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle resulting in a sophisticated ventilation system against condensation and fogging.

ANTI-FOG ON INNER LENS

Enduro double lenses include a soft inner lens which features a stronger built-in anti-fog solution than any other SCOTT lens. When riding Enduro races fog should never be an obstacle.

The SCOTT Prospect Enduro Goggle is designed specifically for the modern enduro rider. Boasting the same great features as the Prospect, it also comes with a double lens with Air Control System that prevents fogging and gives the enduro rider extra-clear vision in low-speed situations. In addition, it features an innovative SCOTT Lens Lock System and NoSweat face foam. To avoid slipping of the goggle, it is equipped with an extra-wide, no-slip silicone strap. This strap, together with the articulated outriggers, highly contribute to the improved helmet integration.

FRAME TECHNOLOGIES

- Lens Lock System
- NoSweat 3-layer molded face foam
- Articulated outriggers
- Extra wide no-slip silicone strap

PROSPECT

light sensitive

DESIGNED TO DEFEND YOUR VISION FROM THE SMALLEST GRAINS OF SAND.

In the desert or on the beach, the Prospect Sand Dust LS is constructed with a specifically engineered foam that ensures the sand stays out of your eyes. Paired with a Light Sensitive lens which adapts to sunlight intensity, this is the ultimate goggle for all sand-based riding.

NO-SLIP SILICONE STRAP

LENS LOCK SYSTEM

MASSIVE FIELD OF VISION

50MM STRAP

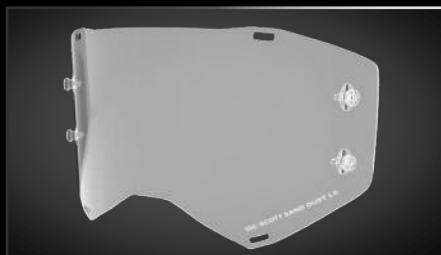

PIVOTING OUTRIGGERS

NO SWEAT SUPER SOFT FOAM

SMALL PARTICLE VENT FOAM MEMBRANE

To avoid any sand or dust-sized particles getting into the frame, all SCOTT Sand Dust goggles are mounted with a closed cell membrane instead of the traditional open cell vent foam. This technology guarantees perfect isolation from the elements.

LIGHT SENSITIVE LENS CAT. 1-2

SCOTT Light Sensitive lenses engage photochromic technology and adapt automatically to sunlight intensity. These lenses react to light changes and within seconds the lens will darken when the brightness gets stronger or lighten when the sunlight gets weaker.

LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

The SCOTT Prospect Sand Dust Light Sensitive Goggle has been specifically designed for use on beaches, in deserts and out in the dunes. The already exceptional features of the Prospect goggle are paired with the revolutionary Dust Catcher foam. Ride freely without worrying about even the smallest dust or sand particles getting inside your goggles. This assurance, combined with a large field of vision, the innovative SCOTT Lens Lock System, articulated outriggers and a Light Sensitive lens that adapts automatically to sunlight, are everything you need for your next ride.

FURY.

LOW PROFILE, HIGH PERFORMANCE.

The younger brother of the Prospect, the Fury is a lightweight option that doesn't compromise on safety or style. Pushing the limits of field of vision, comfort and lens retention, the Fury is a perfect choice for all levels of rider.

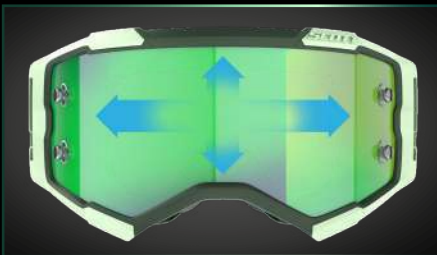

NO-SLIP SILICONE STRAP

LENS LOCK SYSTEM

MASSIVE FIELD OF VISION

WFS50 ROLL-OFF SYSTEM COMPATIBLE

3-LAYER MOLDED FACE FOAM

MASSIVE FIELD OF VISION

Carrying the same lens as the Prospect goggle, we are proud to say that the Fury offers the largest field of vision on the market. The large lens combined with a thin frame construction brings the lens closer to your eyes, maximizing the overall field of vision.

LENS LOCK SYSTEM

Transferred from the Prospect to the Fury Goggle, our innovative Lens Lock System is another highlight that distinguishes this new goggle. With the Lens Lock System it guarantees you the safest lens retention on the market and enables you to change your lens anywhere anytime.

PROSPECT ACCESSORY COMPATIBLE

WFS 50, lens, anti-stick grid or mudflap – any of these accessories can be used for both our Fury and Prospect Goggle. This makes it very convenient to switch from one goggle to the other without worrying about the right accessories.

The SCOTT Fury Goggle is guaranteed to shake things up. Shaped by innovation, technology and design, the Fury follows in the steps of our flagship goggle, the Prospect. Featuring our proven SCOTT Lens Lock System, 3-layer face foam, no-slip silicone strap, and supporting all the same accessories as the Prospect, this low-profile, high-performance motocross goggle was fully developed to Defend Your Vision in any and all conditions.

HERITAGE BRANDING

The branding on the 89X Era goggle uses SCOTT's old heritage logo, as found on the original 89 series goggles.

NO-SLIP SILICONE STRAP

Adhered silicone strips on the inside of the goggle strap ensures the goggles stay in place on your helmet.

2-LAYER FACE FOAM

Open-celled face foam with excellent moisture-absorbing and thermal properties, guaranteeing you stay dry and comfortable all day.

The SCOTT 89X Era goggle combines classic moto style with modern performance features. Stooped in heritage, this goggle is a true revival of the original and much-loved SCOTT 89 series goggle from back in the day, with a few cool twists of course! The strap has been fully updated with new materials including silicon lining and premium branding. Fitted with a stunning chrome lens as standard and featuring 100% UV Protection and anti-fog lens treatment, you don't have to worry about your vision in the dirt or on the streets. Finished with exceptional painting detail and unique designs, the 89X Era is the no. 1 choice for that real retro look!

AMP

THE MOST INNOVATIVE LENS TECHNOLOGY SCOTT HAS EVER DEVELOPED

SCOTT's Off-Road injected molded AMP Lens Technology utilizes a unique light transmission curve to optimize the transmission of key light waves that are most important to the human eye, so you can see more in every condition.

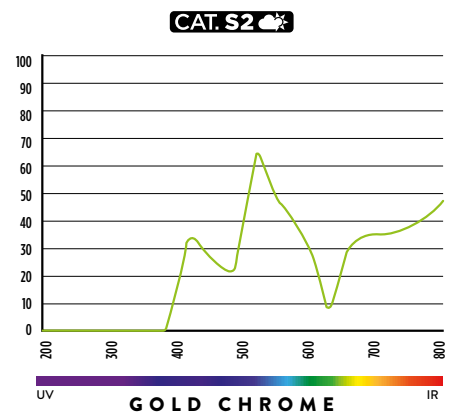

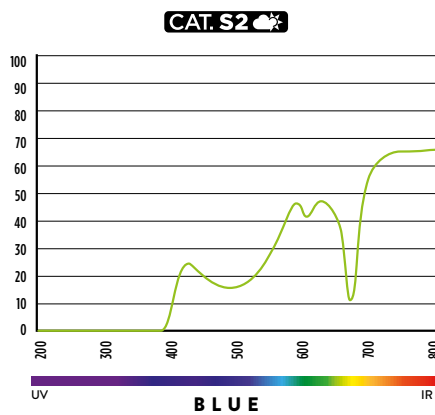

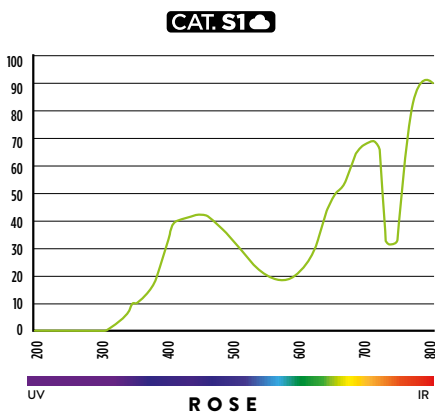

WHAT IS CONTRAST?

The SCOTT AMP Technology tint is designed to let through some specific colors to your eye while filtering out others, in order to create a high contrast within the terrain you are looking at.

HOW DOES THE EYE PERCEIVE CONTRAST?

Through years of research we have learnt that our eyes are better at perceiving certain wavelengths than others. The eye can be thought of as the lens of a camera. There are parts and mechanisms inside the eye that control the vital role in our ability to see things in focus, color, darkness and brightness. By controlling what is let through the AMP lens, we can control how the external environment is perceived.

SCOTT AMP TECHNOLOGY
IS AVAILABLE IN VARIOUS
OFF-ROAD LENS OPTIONS

CONTRAST AMPLIFIED

SCOTT sets the industry standard for contrast enhancing optics with its patented AMP lens technology. The secret to AMP technology is its ability to add contrast while increasing clarity and definition in all racing conditions.

MAIN BENEFITS

- Allows you to see contours, ruts and transitions in the dirt in ultra-high-definition
- Works for both motocross and enduro
- Builds speed and confidence through improved visual clarity

SCOTT LIGHT SENSITIVE LENSES

—
ONE LENS FOR EVERY LIGHT CONDITION

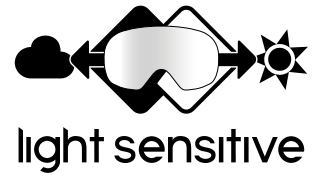

SCOTT's Light Sensitive lenses engage photo-chromic technology and adapt automatically to sunlight intensity to give you ultimate vision on the track regardless of the light conditions. These lenses automatically react to light changes and within seconds the lens will either darken when the brightness gets stronger or lighten when the sunlight gets weaker. This means going from bright sun into sudden shade has never been easier.

PROSPECT LIGHT SENSITIVE

SINGLE LENS : S0-2 / 28-86%

DOUBLE LENS : S1-2 / 26-76%

SCOTT WORKS LENSES

SCOTT'S INNOVATIVE WORKS LENSES SET OUR GOGGLES APART FROM THE REST.

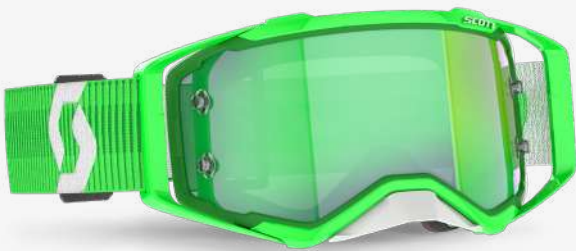

Featuring SCOTT's historic technology, the WORKS lens enables the rider to use the same lens for both tear-offs and roll-offs. With these do-it-all lenses, you can be fully prepared for whatever the weather might throw at you. Thanks to the factory-installed WORKS pins, scott roll-off systems or tear-offs can be easily and quickly mounted and removed depending on the race profile and track conditions.

4-PIN WORKS LENSES

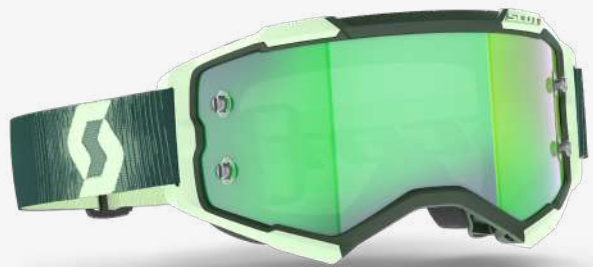

For the larger lens on the SCOTT Prospect and Fury goggles, the 4 pins provide more stability for the tear-offs and the WFS50. With this system the accessories will always remain tight to the lens and provide the rider with a better vision.

FRAME & FOAM TECHNOLOGIES

Foam Technologies

NO SWEAT FACE FOAM

SCOTT's unique NoSweat Face Foam consists of a microfiber layer that is extremely water absorbent. It soaks up moisture fast and avoids sweat getting into your eyes or inside the goggle.

3 LAYER FACE FOAM

SCOTT's three-layer, open-celled face foam with fleece has excellent moisture-absorbing properties, and offers increased levels of comfort and an improved fit thanks to the extra layer of protective foam.

2 LAYER FACE FOAM

SCOTT's two-layer, open-celled face foam with fleece has excellent moisture-absorbing and thermal properties, ensuring that you stay warm, dry, and comfortable all day.

1 LAYER FACE FOAM

Thanks to the large, soft, single density face foam, a precise fit around facial features is provided while sealing out the elements.

DUSTCATCHER VENT FOAM

Dustcatcher vent foam is a purpose-engineered vent foam that has finer holes than standard to stop dust getting through the foam and into your goggles and eyes. Essential for any form of desert, beach or sand racing.

Frame Technologies

SILICONE STRAP

Adhered silicone strips on the inside of the goggle strap ensures the goggles stay in place on your helmet.

EXTRA WIDE NO-SLIP SILICONE STRAP

Our 50mm straps provide superior stability and comfort under any conditions as well as ultimate style.

LENS LOCK

The SCOTT Lens Lock System has been designed to guarantee the safest lens retention on the market. To avoid the lens coming out, this innovative Lens Lock System features four locking pins that go through the lens instead of grabbing it from the top.

ARTICULATING OUTRIGGERS

The Prospect has two pivoting outriggers that adapt to any helmet shape and size. The resulting pressure created by the goggle on the rider's face provides a complete and consistent seal.

RAM AIR

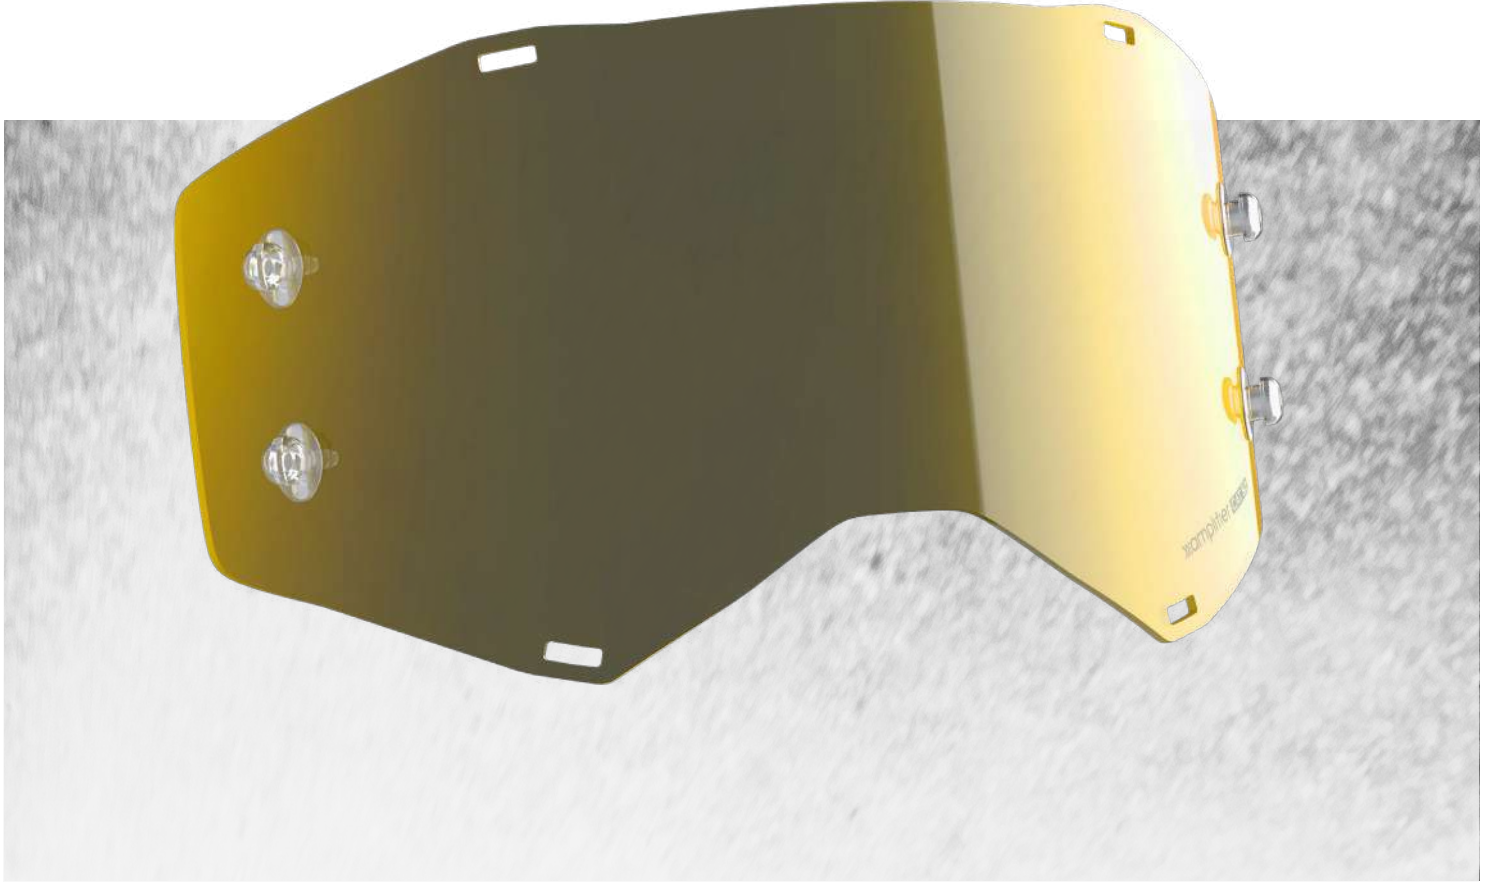

RAM (Revolutionary Air Management) System increases the airflow inside the goggle frame to avoid moisture on the lens.

OTG

OTG goggles offer protection from the elements and an optimized fit for people requiring prescription glasses, thanks to a specific and adapted construction.

LENS TECHNOLOGIES

Lens Technologies

AMP

AMP is a technology to optimize visual contrast and clarity. The unique aspect of AMP is the shape of the visible light transmission curve, optimizing three specific wave lengths which are the most important for the human eye to enhance contrast and clarity.

light sensitive

LIGHT SENSITIVE

SCOTT Light Sensitive lenses engage photochromic technology and adapt automatically to sunlight intensity. Light Sensitive lenses react to light changes and within seconds the lens will darken if the sunlight gets stronger or lighten if the sunlight gets weaker.

ANTISTICK GRID WITH MUDFLAP

The anti-stick grid with an integrated mudflap provides a clear view throughout the entire ride. The mudflap is made out of a transparent material that offers a larger field of vision in dusty or less extreme conditions.

ANTISTICK DOTS

To ensure the smoothest film transfer possible, anti-stick dots on the lens provide pro-level performance when you need it most.

ACS

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle. The result is a sophisticated ventilation system that helps prevent condensation and fogging.

NOFOG

SCOTT lenses undergo a permanent NoFog™ treatment process to prevent condensation and fogging.

IMPACT RESISTANCE

In order to ensure that riders are safe from the impact of pebbles and flying debris, all SCOTT lenses not only meet, but exceed the required impact resistance standards required for MX lenses.

CHROME COATING

SCOTT chrome coating offers unmatched style for your goggles while controlling light transmittance.

UV PROTECTION

100% UV Protection All SCOTT lenses are optically engineered to screen out 100% of harmful UVA/UVB rays.

SCOTT WFS50 ROLL-OFF SYSTEM

DEFEND YOUR VISION

The SCOTT 50mm Works Film System (WFS50) is the ultimate solution to keeping your vision clear in muddy conditions. A larger than average film, easy to install canisters and intelligent design makes the highly reliable WFS50 roll-off system the no. 1 choice of pro and amateur riders alike.

INTEGRATED CANISTER DESIGN
fits perfectly with prospect outriggers

LARGE 50 MM FILM
Increased visibility

ULTRA-DURABLE HOUSING
Stops the film from unraveling mid-race

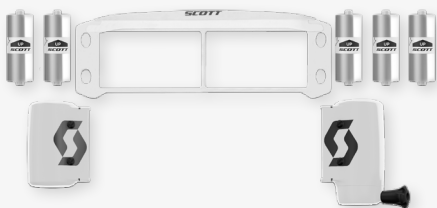

CLICK ON CANISTERS
Quick and easy to install

ANTISTICK GRID AND TRANSPARENT MUDFLAP

A close-up photograph of a man wearing a black cycling jersey. The jersey features prominent protective padding on the shoulders and elbows, which are highlighted by the man's hands. The background is a blurred, natural outdoor setting with rocks and a tree trunk. The word "PROTECTION" is overlaid in white, uppercase letters on the left side of the image.

PROTECTION

PROTECTION TECHNOLOGIES

The new protection standard

THE SAFER PROTECTION

SCOTT AirFlex protection excels with a SCOTT exclusive D3O® design that protects what matters. Improved protection along the spine with extended support in the crucial lumbar area reduces the risk of injuries by absorbing any type of impact. All of our protection are certified according to current European standards – EN 1621-2. We are proud to offer protection that goes beyond this standard and elevates your safety by covering more of your crucial body parts.

VENTILATION. MAXIMUM AIRFLOW

Gone are the times when back protectors were adding heat. With strategically placed air vents, AirFlex controls body temperature by allowing maximum airflow. Keep your body at the right temperature in every moment.

COMFORT THROUGH FLEXIBILITY

Performing at your best requires maximum freedom of movement. While protecting against any energy impact, AirFlex is light and follows your every movement. Soft as a marshmallow, but hard as a diamond in the event of an impact, AirFlex with D3O® feels like a second skin that adapts to your body.

Technology

D3O® IMPACT PROTECTION TECHNOLOGY

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

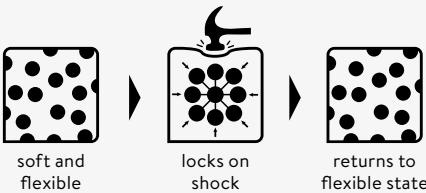

SHOCK ABSORPTION

Unique technology that focuses on energy absorption and protection.

LIGHT & FLEXIBLE

Provides maximum comfort and protection at the same time.

CE CERTIFIED

Integrated D3O® protectors allow for highest levels of safety according to CE EN 1621.

Features

SOFT-SHELL

Soft-shell construction offers more flexibility and comfort.

EASILY WASHABLE

Inserted protective plate is easily removable and washable.

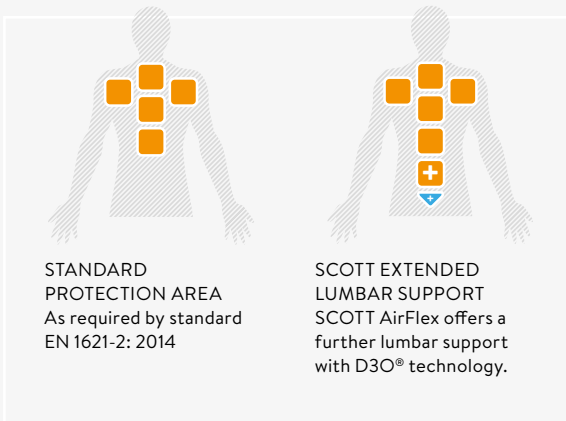

BACK-PACK FRIENDLY

Some of our plates are so thin that you can even wear a backpack over them.

LUMBAR SUPPORT

For improved protection of your back and spine, with extended support in the crucial lumbar area.

PROTECTION BEYOND STANDARDS EXTENDED LUMBAR SUPPORT

For improved protection of your back and spine, with extended support in the crucial lumbar area. We are proud to offer protection that goes beyond the standard and elevates your safety by covering more of your crucial body parts.

CERTIFICATION

All our protectors are certified according to current European standards - EN 1621-2: 2014.

LEVEL 1

The innovative AirFlex plate is made with an exclusive D3O® material for ultimate protective performance. Strategically placed vents and a flexible design mean optimal airflow and maximum comfort.

Withstands 5kg impacts with no more than 18KN of force transmitted.

PERFECT FOR: Versatile riders who seek a lightweight protector

SCOTT PODIUM PRO PANTS

418586

The SCOTT Podium Pro Pants represent the very latest in motocross pant design and technology. Featuring a wide rear elastic waist band, articulated pre-cut panels and full stretch fabric, these innovative MX pants are fully designed to move perfectly with your body as you make your way to the front of the pack. Also featured are several ventilation solutions including laser cut vent holes to keep you cool in the hottest of riding conditions. When it comes to durability, these motocross pants are fitted with super-strong 900D rear seat panel for improved abrasion resistance and premium genuine leather knee panels with ballistic backing. The Podium Pro Pants also feature our unique alloy hook closure system, which as well as reducing weight, is ultra-comfy when in the seated position.

COMPOSITION: 92% Polyester 8% Elastane

FIT: Athletic

SIZE: 28-38

FEATURES:

- Articulated pre-cut panels for maximum range of motion
- Unique and secure alloy hook closure system
- Wide rear elastic waist band for maximum mobility and comfort
- 900D rear seat panel for improved abrasion resistance
- High performance and lightweight materials
- Fully taped seams
- Perforated mesh panels at back of legs for optimal airflow
- Full stretch fabric
- Laser cut ventilation holes
- Leather knee panels with ballistic backing for durability

SCOTT EVO DIRT

THE LIGHTWEIGHT AND VENTILATED EVO DIRT GEAR OFFERS
ULTIMATE STYLE FOR RIDERS OF ALL LEVEL

SCOTT EVO DIRT JERSEY

418529

Lightweight and highly ventilated, the SCOTT Evo Dirt jersey will keep you cool moto after moto. A modern design offers increased mobility, whilst the raglan sleeves and low-profile collar offer a race-ready look and added style. Maximum airflow is achieved through laser-cut vent holes and strategically placed mesh paneling. All this and more makes the Evo Dirt a no.1 choice for your next motocross jersey.

COMPOSITION: 92% Polyester 8% Elastane
FIT: Regular
SIZE: S-XXL

- FEATURES:**
- Moisture wicking material
 - Raglan sleeves
 - Laser cut ventilation holes
 - Rear neck mesh
 - Low profile collar
 - Armpit venting

SCOTT EVO DIRT PANTS

418588

The SCOTT Evo Dirt Pant combines tough construction with cutting-edge materials to create the ultimate modern MX pant. Strategically placed stretch panels and laser cut vent holes combined with an articulated fit offer superior freedom of movement and comfort no matter how intense the race gets. The Evo Dirt motocross pant also comes as standard with a sturdy 900D rear seat panel and high-quality leather inner knee patches for uncompromised abrasion resistance and long-term durability regardless of how hard you ride.

COMPOSITION: 95% Polyester 3% Elastane 2% Cow leather
LINING: 100% Polyester
FIT: Regular
SIZE: 28-38

- FEATURES:**
- Articulated pre-cut panels for maximum range of motion
 - 900D rear seat panel for improved abrasion resistance
 - 900D inner lining on knee leather to eliminate knee brace wear
 - Leather knee panels with ballistic backing for durability
 - Laser cut ventilation holes
 - Adjustable waistband
 - 3/4 mesh lining
 - Perforated mesh panels at back of legs for optimal airflow
 - Strategic accordion stretch panels
 - Lightly padded knee area

SCOTT X-PLORE JACKET

A HIGH PERFORMANCE ENDURO JACKET THAT WILL PERFORM
IN ALL CONDITIONS.

SCOTT X-PLORE JACKET

292381

The SCOTT X-Plore Jacket has been engineered to provide riders with a versatile, high performance enduro jacket that will perform in all conditions. Super durable Ripstop construction with ballistic Nylon reinforcements means this jacket is sure to stand the test of time. Removable sleeves allow you to quickly turn this jacket into a vest and a strategic ventilation system with ports on the front and back offers fully customized climate control. Multiple pockets offer plenty of intelligent storage for your essentials, whilst integrated hydration ports keep everything neat and tidy when riding with a hydration pack. All this and more makes the SCOTT X-Plore Jacket an essential addition to your enduro gear bag.

COMPOSITION: 100% Polyester

FIT: Regular

SIZE: S-3XL

FEATURES:

- Wind resistant material
- Reinforced elbow and shoulders
- Zip off removable sleeves
- Rear zipped pocket transforms into wearable jacket storage
- 5 pockets
- Strategic front and rear ventilation system
- Integrated hydration hose ports
- High visibility reflective panels

SCOTT X-PLORE SWAP OVERBOOT PANT

292380

With a modern, clean, and neutral look, the SCOTT X-Plore Swap Overboot Pant matches up perfectly with our choice of X-Plore Swap jersey's, allowing you to mix and match to create your own style. Featuring a stretch Kevlar inner knee, highly durable construction throughout, ventilation holes and strategic stretch panels, this bullet-proof enduro pant has everything you need to conquer the trail in total comfort.

Clarino™

The secret to Clarino's™ superior strength and supple hand-feel is the ultra-fine fibre technology. The material is composed of a non-woven fabric consisting of ultra-fine fibres which are impregnated with polyurethane. This helps the fibre to be more flexible and easier to process.

Clarino.

The SCOTT Podium Pro glove represents the pinnacle of motocross glove performance. A highly technical Clarino™ palm combined with strategically placed Silicone print offers increased bar feel and pro-level control. Laser cut holes and ventilated rubber details provide enhanced airflow to keep your hands cool when the racing heats up, whilst the stretch herringbone back of hand material gives you all the dexterity and freedom of movement you need. All this and more makes the ultra-lightweight Podium Pro motocross glove the no.1 choice for riders who like to win in style.

Clarino™

The secret to Clarino's™ superior strength and supple hand-feel is the ultra-fine fibre technology. The material is composed of a non-woven fabric consisting of ultra-fine fibres which are impregnated with polyurethane. This helps the fibre to be more flexible and easier to process.

D3O®

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

The SCOTT X-Plore D3O Glove has been built from the ground up to offer enduro and off-road riders a highly durable, protective glove that can be used in a wide variety of conditions. D3O® knuckle and finger protection means you can blast through the trees and rocks with confidence, whilst the breathable back of hand stretch mesh gives you all the dexterity and control you need. Clarino™ palm reinforcements will work to keep you riding for longer, and the touchscreen compatible index finger means you can access your device with ease on the move! If you are looking for one of the most bomb-proof enduro gloves out there, the X-Plore D3O is the one for you!

GLOVES TECHNOLOGIES

Clarino™

The secret to Clarino's™ superior strength and supple hand-feel is the ultra-fine fibre technology. The material is composed of a non-woven fabric consisting of ultra-fine fibres which are impregnated with polyurethane. This helps the fibre to be more flexible and easier to process.

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

SCOTT Touchscreen Technology - placed on the tip of the index finger allows the rider to interact with their touchscreen devices without removing the gloves.

GRIPS

SCOTT LOCK ON GRIPS

CONTROL MATTERS

SCOTT Lock On Grips take rider control to the next level. Featuring the latest technologies and premium features, these grips offer riders the same pro-level performance as our traditional grips, with the extra benefit of quick and easy installation.

IMPROVED SAFETY

Thanks to our premium alloy clamps, SCOTT Lock On Grips will stay in place no matter what. Once locked in place, there is no chance of the grips slipping on the handlebar.

VIBRATION REDUCTION TECHNOLOGY

Vibration reduction in our clutch-side Lock On Grip is achieved through our strategically windowed core. The window is positioned so that it is in line with riders hand when in the riding position. Even though you can't feel the window when mounted on a handlebar, the soft material which fills out the window greatly reduces vibrations compared to a standard solid core.

FAST AND EASY INSTALLATION

With the SCOTT Lock On Grips there is no need for safety wire or messy grip glue. There are 24 locking points, offering maximum options to place the grips in exactly the position you like. Installation is super-fast and there is no time wasting whilst you wait for glue to dry after installation. Simply lock on and ride!

CAM COMPATIBILITY

Our Lock On Grips are supplied with multiple cam sets to fit the most common models of dirt bike. Simply select the right Cam for your bike from our Cam Compatibility Table, install it and you're ready to go.

PREMIUM RUBBER

By using our tried and tested SXII rubber grip pattern, the SCOTT Lock On Grips offer riders maximum control and longevity in all conditions.

SCOTT SX II LOCK ON GRIP + CAM SET

292452

The SCOTT SXII Lock On Grips are the result of over 50 years of SCOTT's experience making market-leading motocross grips. Capitalizing on this experience and technical know-how, the SCOTT engineers used the latest cutting-edge materials and manufacturing processes to create a motocross grip that offers all the control and comfort you need, whilst also making installation a breeze. No grip glue or wire is required to mount the grips and any form of grip slippage is completely eliminated. With our tried and trusted SXII diamond rubber pattern combined with vibration reducing construction, the SXII Lock On grips will provide a premium riding experience for any level of rider.

black/grey

SCOTT DIAMOND + DONUT GRIP

219626

The go-to motocross grip for many a professional racer, the SCOTT Diamond Grip is the most advanced mx grip in the range thanks to its highly advanced triple density construction. A medium density outer waffle pattern delivers maximum control and durability, whilst the soft density diamond pattern area reduces vibration, therefore reducing arm pump and fatigue. A firm density end cap offers further durability to this advanced motocross or enduro grip. The included grip donuts increase comfort and greatly reduce the chances of getting thumb blisters.

SCOTT SX II + DONUT GRIP

219624

The SCOTT SX II Grip is a dual density motocross grip that features a soft, diamond pattern outer density for maximum control and a hard density inner core and end cap for longevity. The diamond texture offers incredible grip, whilst the soft compound helps reduce arm and hand fatigue. The included grip donuts further increase comfort and greatly reduce the chances of getting thumb blisters. The SXII motocross grip is a top choice amongst many top MX racers and weekend warriors alike.

FEATURES:

- Double density grip
- Full Diamond design
- Firm density inner compound
- Soft density diamond pattern
- Integrated safety wire channel
- Grip donut included

ADVENTURE APPAREL

SCOTT SUPER LIGHT JACKET & PANT

SCOTT SUPERLIGHT MEN'S JACKET

412135

The SCOTT Superlight Jacket is the perfect solution for active adventure motorcycling in warmer conditions. This lightweight, windproof shell jacket is constructed using 2-way stretch, and offers riders maximum comfort and freedom of movement. Large ventilation zips at the front, rear and at the sleeves allow users to regulate their temperature on the go, whilst the large utility pockets give plenty of options for storing your essentials. Finished off with premium D3O® Protection where you need it, this jacket is ready to take on the most extreme of adventure trails.

CERTIFICATION LEVEL: PPE certified Cat. II according to EN 17092-3 2020 (Class AA), SHOULDERS AND ELBOWS: EN 1621-1:2012 (Type A Level 1)

CONSTRUCTION: Breathable HD Polyester fabric 2-way stretch
D3O® Protection

COMPOSITION: SHELL: 60% Polyester: 40% Polyester (recycled), SHELL 2: 100% Polyester, LINING: 100% Polyester

INSULATION: Breathable microD mesh lining

FIT: Regular

SIZE: XS-4XL, DM-D4XL

APPROX. WEIGHT (G): 1870g

FEATURES:

- Designed for freedom of movement
- Durable 2-way stretch fabric for increased mobility
- Seamless and comfortable armpit panel
- D3O® LPI Pro protectors at shoulder and elbow
- Hybrid elbow protector pocket for two height positions
- Pockets for optional chest protectors
- Pocket for optional back protector
- Armpit venting
- Strategic front and rear ventilation system
- Vented mesh rear back panel
- High density knitted lining
- 76cm long connection zipper
- Reflective details

APPAREL TECHNOLOGIES

Our research and development team works with leading manufacturers around the world to deliver revolutionary fabric technologies that protect you from the elements, give more comfort to your body and maximize your enjoyment of outdoor activities, 365 days a year.

FABRIC TECHNOLOGIES

GUARANTEED TO KEEP YOU DRY™ PROMISE

The GORE-TEX membrane is integrated in the garment between the outer material and the lining. It is a perfect barrier to rain and wind, while allowing perspiration to escape. Even in cases of extreme physical exertion, humidity will be transported to the outside of the clothing system and you always stay comfortable in your SCOTT garments engineered with GORE-TEX products.

YKK

Little Parts. Big Difference.™

YKK WATERR ZIPPER

WaterR is a durable water-repellent treatment used to enhance YKK's range of aqua zippers. YKK's WaterR treated items are available for a variety of functions in both Coil and Vislon® and helps to reduce water seepage and wicking in outer shell garments and equipment. All our YKK WaterR zippers passed the GORE-TEX approval for SMB garments.

Pittards®

WORLD CLASS LEATHER

A DIGITAL LEATHER PRODUCED IN THE UK
Motorcyclists worldwide demand the highest level of performance from their protective equipment.

YKK

Little Parts. Big Difference.™

YKK AQUAGUARD® ZIPPER

AquaGuard® is a water-repellent zipper. It is created by laminating PU on the textile tape, the PU layer is acting as a membrane. YKK's AquaGuard® items are available for a variety of functions in both Coil and Vislon®. It is the most commonly used zipper solution for quality rain and wind proof outer shell garments. Unlike standard PU coated items, the superior Aquaguard® range withstands an extensive shower test and does not absorb water.

DEXFIL® Insulation

Thin and lightweight, Dexfil insulation provides superior insulation by trapping high levels of still air in each given space. The incredibly fine denier fabric creates an extraordinary insulating effect that retains its shape and insulating properties even after repeated cleaning.

CO DWR OR PFC-FREE

Perfluorinated and polyfluorinated compounds, also known as PFCs, are a group of fluorinated substances that have long been used to provide durable water repellence for clothing in the outdoor industry. They are very bad for the environment because they are very stable and do not easily break down in nature, which is why PFC-free/CO DWR treatments have been developed. These are less durable but more sustainable.

D3O PROTECTION

For more information on D3O protection for Adventure gear, please turn to page 62 on MX section.

CORDURA®

BRAND
F A B R I C

CORDURA®

CORDURA® fabric is what many of the most respected brands and retailers around the world use when they need to make a product that's durable, versatile and reliable. Constructed using high tenacity fiber technologies, weight for weight, CORDURA® fabrics are exceptionally durable.

DRYOSPHERE

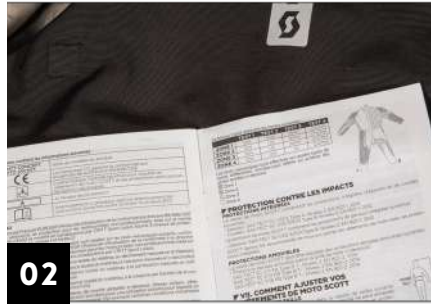

DRYOsphere fabrics provide a waterproof/breathable barrier from the elements. A shield against water and wind, DRYOsphere fabric also allows for water vapor to escape from the body, keeping you dry and comfortable in any conditions.

2-WAY STRETCH FABRIC

A two-way stretch fabric that gives you the freedom of movement and flexibility for adventures that require an improved range of motion.

ADVENTURE GLOVES

SCOTT PRIORITY PRO GTX GLOVES

A NEW TOP OF THE RANGE GLOVE FOR THE SERIOUS
ADVENTURE MOTORCYCLE RIDER.

Featuring GORE-TEX® inserts, Primaloft® insulation and
GORE-TEX® grip technology, these highly technical gloves are built
to withstand the harshest of riding conditions

GORE-TEX® GRIP
TECHNOLOGY

SHERPA
FLEECE LINING

KNUCKLE
PROTECTION

FLEX ZONES

For more than 30 years, GORE-TEX products have been delivering comfort and protection so you can enjoy your outdoor activities with confidence. The GORE-TEX membrane is integrated in the garment between the outer material and the lining. It is a perfect barrier to rain and wind, while allowing perspiration to escape.

PrimaLoft® insulation products offer superior performance in cold weather. PrimaLoft® is lightweight, breathable and proven to repel water better than any other synthetic or natural insulation.

SCOTT PRIORITY PRO GORE-TEX GLOVE

413243

The Priority Pro GTX glove from SCOTT is the top of the range glove in the Adventure motorcycle collection. Featuring GORE-TEX® inserts, Primaloft® insulation and GORE-TEX® grip technology, you can rest assured that these gloves are built to withstand the harshest of outdoor conditions. Technical knuckle protection offers essential armor for your hands, whilst the abrasion resistant palm and side reinforcements ensure the gloves stay in one piece over long, demanding trips. Be prepared for your next adventure Priority Pro GTX!
