NO SHORTCUTS

NO SHORTCUTS

CONTENT

NO SHORTCUTS

Like the modest champion sitting in the corner listening as others spit their egos all over each other, SCOTT quietly lets its achievements, its victories, its skills speak for themselves. We don't make products for those who yearn to be noticed. We make them for those who are going to do what they do whether there's anyone watching or not.

If you're like us, you say what you say, do what you do, ride where you ride because you love it. You do it the right way. You do it for the right reasons.

SCOTT

INNOVATION TECHNOLOGY DESIGN

Since 1958 SCOTT Sports has pushed the limits of innovation, technology and design. From the first aluminium ski pole, to the introduction of aero bars and the original plastic moto cross boot, we have led the way in the sports industry.

Combining endless determination to improve with the methodical intricacy put into each product, SCOTT prepares athletes to reach their highest potentials.

The 2023 collection exemplifies this mentality and the unification of our three core philosophies. When you push yourself to the limit SCOTT will stand by you and help you surpass what even you believed was impossible. Let our passion become your passion and

your successes become our successes.

ELEVATE YOUR SAFETY

WITH SCOTT - WE'VE GOT YOU COVERED.

WE DEVELOP, TEST AND RE-TEST IN ORDER TO PERFECT OUR PRODUCTS OVER YEARS AND YEARS. OUR GOGGLES, BODY PROTECTION AND HELMETS GIVE YOU THAT EXTRA BIT OF SAFETY IN THOSE CRUCIAL AREAS OF YOUR BODY WHEN IT COUNTS. REGARDLESS IF YOU ARE ON THE TRACK, ON TRAILS OR ANYWHERE ELSE -

„ELEVATE YOUR SAFETY“

WE GO BEYOND THE STANDARDS

SCOTT Sports has pushed the limits of innovation, technology and design and consequently is also pushing the limits of safety. For our Motorsports collection, safety has a very high priority. It is not only the human power, but also the raw engine power beneath the rider that demands this extra level of safety. We at SCOTT are proud that our wide protection expertise, gained from our different sport involvements, allows us to push safety beyond standards.

When you push yourself to the limit SCOTT will stand by you and help you surpass what you believed was possible. We take the statement "Elevate your Safety" very seriously and don't award this accolade to every product. Items in this category provide you with safety above standards. Convince yourself by checking out our range of "Elevate your Safety"

EYEWEAR LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

BODY PROTECTION EXTENDED COVERAGE DESIGN

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection.

ALPRIDE AIRBAG SYSTEM 2.0

The new SCOTT Alpride Airbag System 2.0 is one of the lightest inflation systems on the market, offering better air intake to ensure your backpack, and you, rise to the top of dangerous moving snow.

G O G G L E S

PROSPECT

THE PINNACLE OF SNOWMOBILE GOGGLE
DESIGN AND INNOVATION

The Prospect Snowcross is the ultimate snowmobile goggle. Designed from the ground up with performance in mind, this top-of-the-range goggle offers perfect vision, maximum protection and ultimate style in all conditions.

amplifier
LENS TECHNOLOGY

MASSIVE FIELD OF VISION

SCOTT offers the largest field of vision on the market. The larger lens and the thin frame construction bring the lens closer to your eyes maximizing your vision to the fullest.

LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

PIVOTING OUTRIGGERS

The two pivoting outriggers adapt to any helmet shape, providing a good seal on the rider's face.

The SCOTT Prospect Snow Cross Goggle has everything you need to ensure your vision is the best it can be in the mountains: a maximum field of vision, Amplifier lenses, the innovative SCOTT Lens Lock System, articulating outriggers, a large silicone-lined strap and much more. SCOTT has yet again pushed the limits of snowmobile goggle design one step further with the Prospect goggle, and with a wide range of colors and designs to choose from, you are sure to find a Prospect to match your style.

SCOTT

FURY.

THE FURY SNOWCROSS GUARANTEES TO SHAKE THINGS UP

Following in the footsteps of our flagship goggle, the Prospect, the Fury Snowcross features a massive field of vision, ultimate comfort and superior lens retention. All this and more makes this high performance, lightweight goggle a must have for all styles of rider.

MASSIVE FIELD OF VISION

SCOTT offers the largest field of vision on the market. The larger lens and the thin frame construction bring the lens closer to your eyes maximizing your vision to the fullest.

LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

BIG 3-LAYER FACE FOAM

SCOTT's Big 3-Layer Face Foam incorporates three layers of foam to provide maximum comfort, with an extended top section for increased protection from the elements.

The SCOTT Fury Snow Cross Goggle is guaranteed to shake things up. Shaped by innovation, technology and design, the Fury follows in the footsteps of our flagship snowmobile goggle, the Prospect Snow Cross. Featuring our proven SCOTT Lens Lock System, Big 3-layer face foam, ACS Air Control System and NoFog™ Anti-Fog lens treatment, you can rest assured the Fury won't let you down.

 **SCOTT**

PRIMAL

A VERSATILE GOGGLE THAT IS READY
FOR ALL CONDITIONS

A classic design with innovative features makes the Primal a great choice for a wide range of snowmobile users. Available with two options of modernized facemasks, the Primal Snowcross goggle is ready and waiting to take on any conditions and any terrain you can throw at it.

safari facemask

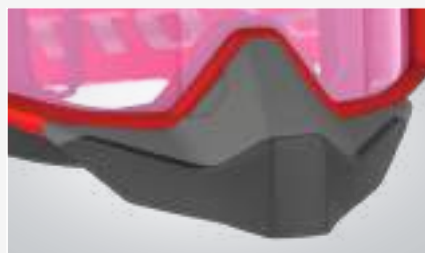

BIG 2-LAYERS OF FACE FOAM

Two layers face foam offer great comfort, whilst the big foam profile offers vital protection from the elements.

NO-SLIP SILICONE STRAP

A no-slip Silicone strap ensures your goggles stay firmly in place no matter what style of helmet you use.

SELECTION OF FACEMASKS

With a choice of the regular and the larger Safari facemasks available, the Primal offers many options for many users.

The SCOTT Primal Snow Cross Goggle is the perfect choice for newcomers and experienced snowmobile riders on a budget. With great features such as Big 2-layer face foam, a SCOTT TruView single WORKS lens, ACS Air Control System and NoFog™ Anti-Fog lens treatment, the Primal Snow Cross follows in the footsteps of its big brothers, the Prospect and the Fury. Optimized for smaller faces, the Primal Snow Cross packs a real punch and is available at an unbeatable price.

SPLIT OTG

THE ULTIMATE OTG SNOWMOBILE GOGGLE

The Split OTG Goggle utilizes the latest snowmobile goggle engineering and represents a new era of fog-free OTG goggles.

INTEGRATED RAM AIR SYSTEM

This innovative intake system is engineered specifically to increase air-flow to reduce the risk of your glasses or goggle lenses fogging up.

OPTIMIZED FOR PRESCRIPTION GLASSES

Specially designed to offer maximum comfort and an ergonomic, secure fit when worn over your regular prescription glasses.

BIG 3 LAYER FACE FOAM

SCOTT's Big 3-Layer Face Foam incorporates three layers of foam to provide maximum comfort, with an extended top section for increased protection from the elements.

The SCOTT Split OTG Snow Cross Light Sensitive Goggle is the ultimate goggle for wearing over the glasses. Fitted with a Light Sensitive lens, these photo-chromatic goggles will instantly adapt to the sunlight conditions around you. A new integrated RAM Air System dictates the flow of air coming into the goggle through the top spoiler to ensure the lenses don't steam up and stay crystal clear all day long. Combined with 3-layer face foam, SCOTT's NoFog™ Anti-Fog lens treatment and a fit that has been specifically designed to be worn with glasses, the Split OTG Light Sensitive goggle makes snowmobile riding in glasses a breeze.

AMPLIFYING THE LIGHT YOU NEED AND BLOCKING THE LIGHT YOU DON'T

By tuning the curve we amplify the light you need and block the light you don't. Useful colors are important for the human eye to enhance contrast and clarity, whereas useless light will decrease the perception of contrast and clarity.

The unique aspect of AMPLIFIER Lens Technology is the shape of the visible light transmission curve. AMPLIFIER Lens Technology optimizes the transmission of three specific wavelengths – blue light, orange light and red light. These ranges of light are the most important for the human eye to enhance contrast and clarity.

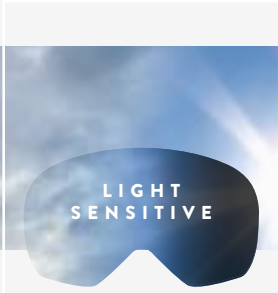

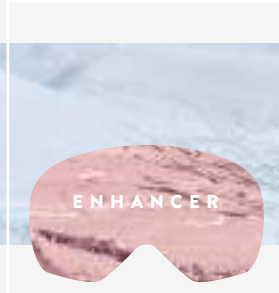

LENS TECHNOLOGY

OPTIMIZING CONTRAST AND CLARITY

20 years ago, an engineer named Bob Youmans invented the impressive and industry-leading **AMPLIFIER Lens Technology**. This technology revolutionized skiing in flat light conditions and is, today, fully integrated into every SCOTT goggle lens.

AMPLIFY YOUR VISION

Amplifier Lens Technology is available on all SCOTT lenses from cat. 1 to cat. 4 as well as Light Sensitive lenses, providing the right lens no matter the conditions.

 <p>LIGHT SENSITIVE</p> <p>CAT. S1-3 ☁️❄️* CAT. S2-3 ☁️❄️❄️* CAT. S2-4 ☁️❄️❄️*</p>	 <p>ILLUMINATOR</p> <p>CAT. S1 ☁️</p>	 <p>ENHANCER</p> <p>CAT. S2 ☁️❄️</p>	 <p>SOLAR BLOCKER</p> <p>CAT. S3 ❄️</p>
One versatile lens for all weather conditions	Creates light when there is none	The standard in contrast in partly cloudy conditions	Ultimate comfort in bright conditions

LENS CONSTRUCTION

Amplifier Lens Technology is fully integrated into SCOTT's very own PC lens. Part of a total of 9 layers, the Amplifier goggle lens is unique and will let you charge down any snow-covered terrain.

FRAME TECHNOLOGIES

Frame ventilations

ALL-AROUND VENTILATION
Frame Ventilation is optimized around the entire frame in order to channel air flow onto the lens, as opposed to the eyes. This technology blocks snow and water from entering the goggle.

Helmet compatibility

SILICONE LINE
An adhered silicone strip on the inside of the goggle strap ensures the goggles stay right where they should on a helmet or hat.

INTEGRATED DESIGN
SCOTT goggles are engineered to engage flawlessly with a variety of helmets, including SCOTT's entire helmet line.

FACEMASK
Designed for harsh weather conditions SCOTT snowmobile goggles include facemasks that provide additional protection from the wind and cold.

PIVOTING OUTRIGGERS
The Prospect has two pivoting outriggers that adapt to any helmet shape and size. The resulting pressure created by the goggle on the rider's face provides a complete and consistent seal.

Comfort

NO SWEAT face foam
The No Sweat Face Foam consists of a microfiber layer which is extremely water absorbing. It soaks up moisture super fast and avoids sweat getting into your eyes or inside the goggle.

BIG 3-LAYER MOLDED FACE FOAM
SCOTT's premium large face foam does not only feature two layers of foam and one layer of fleece for ultimate fit and comfort, but also has pre-shaped nose foam to avoid any pressure points in this critical area.

BIG TWO-LAYER MOLDED FACE FOAM
This large, two-layer open celled face foam with fleece has excellent moisture absorbing and thermal properties, guaranteeing that you stay warm, dry, and comfortable all day.

BIG SINGLE-LAYER FACE FOAM
Thanks to the large, soft, single density face foam, a precise fit around facial features is provided while sealing out the elements.

Lens retention

LENS LOCK SYSTEM
The innovative lens lock system features 4 locking pins that go through the lens instead of grabbing it from the top. Like this the lens stays in the frame no matter what.

LENS TECHNOLOGIES

Lens shapes

1. CYLINDRICAL LENS

Cylindrical lenses curve from left to right and are flat from top to bottom. These are low profile, flexible, and offer a unique look.

External coatings

2. HARD COATING

SCOTT hard coating creates a permanent bond with the lens that reduces the appearance of hairline scratches and provides overall lens durability.

3. CHROME COATING

SCOTT chrome coating offers unmatched style for your goggles while controlling light transmittance.

Fog resistance

4. ANTI-FOG COATING

SCOTT lenses undergo a permanent NoFog™ treatment process to prevent condensation and fogging.

5. SPACER FOAM AND DOUBLE LENSES

Spacer Foam and Double Lenses block moisture and eliminate fogging, while allowing for optimal breathability.

6. AIR CONTROL SYSTEM (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle.

Outer lens

SCOTT OPTIVIEW

These European-manufactured lenses are made of polycarbonate, ensuring comfort and high-impact resistance. SCOTT's proprietary injection-molding process and hard coating treatment guarantee that every OptiView lens is optically correct and distortion free. SCOTT OptiView lenses are available as spherical or cylindrical.

SCOTT TRUVIEW

These European-manufactured lenses are made of extruded and thermoformed sheets of selected celluloses (CA/CP/PC). TruView lenses pass SCOTT's strict testing procedures, delivering high-quality, performance lenses. SCOTT TruView lenses are available as cylindrical double or single lens.

APPAREL

DEEP SNOW LINE

DS FLEX DRYO MONOSUIT

THE DS FLEX DRYO MONOSUIT UTILIZES FULL STRETCH FABRIC THROUGHOUT FOR UNPARALLELED FREEDOM OF MOVEMENT AND MAXIMUM COMFORT IN ALL CONDITIONS.

YKK
Little Room. Big Difference.
**PFC FREE
DWR**

The SCOTT DS Flex Dryo Monosuit is a shell snowmobile monosuit that has been manufactured with full stretch fabric in both the outershell and inner lining to offer riders unparalleled freedom of movement and comfort when snowmobiling. YKK Aquaguard® zippers will work with the cuff and boot gaiters to keep out any unwanted moisture, letting you concentrate fully on your lines. A clean, stylish design finishes off this premium, highly technical snowmobile monosuit.

CONSTRUCTION: DWR Nylon/Polyester stretch fabric with direct laminated, breathable, wind and waterproof DRYOsphere 2L membrane

COMPOSITION: SHELL FABRIC: 84% Polyamide, 16% Elastane, **MEMBRANE:** 100% Polyurethane, **LINING:** 100% Polyester, **INSULATION:** 100% Polyester

INSULATION: Non-insulated Shell with thermal pads at shoulder, seat and knee

FIT: Regular

SIZE: 2XS-3XL

APPROX. WEIGHT (KG): 2,4

WATERPROOFNESS: 15,000MM* / **BREATHABILITY:** 10,000G/M²/24H** **ISO 811:** 2018 ****ASTM E96 - 2000**

ECO-FEATURES: PFC free DWR treatment

FEATURES:

- + Stretchable 2-layer outershell with fully taped seams
- + Reinforcements at sleeves and knee
- + Brushed and stretchable mesh lining with thermal mapping
- + Direct ventilation with YKK Aquaguard® Zippers
- + YKK Aquaguard® 2-way water-resistant front zipper
- + Chest pocket under the collar zipper
- + Glove-friendly zipper pullers
- + Side leg zipper for easy entry
- + Insulated mobile device napoleon pocket
- + 1 large inner mesh pocket with goggle cloth
- + 2 fleece lined outer side pockets
- + 1 chest pocket
- + SCOTT Snow cuffs with thumb loop
- + Snow gaiters with boot lace loop
- + High and soft collar with removable and adjustable hood
- + Adjustable cuff and waist

DS-I DRYO MONOSUIT

THE SCOTT DS-I DRYO MONOSUIT IS DESIGNED FOR LOW TEMPERATURE CONDITIONS AND FOR THOSE LOOKING FOR THAT BIT OF EXTRA INSULATION.

YKK
Little Parts. Big Difference.

PFC FREE DWR

The SCOTT DS-I Dryo Snowmobile Monosuit is ideal for low temperature winter riders and for those looking for additional insulation. Featuring thermal lining at the body, sleeves and hood for extra warmth, thermal pads at the seat and knee, storm cuff's and YKK Aquaguard® zippers, this snowmobile monosuit has been fully engineered to keep you riding for longer. When the temperatures increase, a breathable lining with ventilated 3D mesh mapping combined with multiple vents and a removable hood means the DS-I Dryo Monosuit allows you to customize the suit to fit your exact snowmobile riding needs.

CONSTRUCTION: Durable Nylon with CO DWR treatment, breathable, wind- and waterproof DRYOsphere 2L membrane

COMPOSITION: SHELL: 100% Polyamide, SHELL2: 100% Polyester, COATING: 100% Polyurethane, LINING: 100% Polyester, FILL: 100% Polyester

INSULATION: Thermal lining with 100g at body, 80g at sleeves and 40g at hood. Thermal pads at seat and knee

FIT: Relaxed

SIZE: S-3XL

APPROX. WEIGHT (KG): 2,5

WATERPROOFNESS: 20,000MMH2O / **BREATHABILITY:** 20,000G/M2/24H ** ISO 811: 2018 **ASTM E96/E96M-16

ECO-FEATURES: PFC free DWR treatment

FEATURES:

- + Fully taped 2-layer outshell
- + Heavy duty nylon at instep, knee and seat
- + Breathable mesh lining, with thermal and ventilated 3D mesh mapping
- + Direct ventilation with YKK Aquaguard® Zippers
- + YKK Aquaguard® 2-way water-resistant front zipper
- + Chestpocket with goggle cloth under the collar zipper
- + Glove friendly zipper pullers

APPAREL TECHNOLOGIES

Our research and development team works with leading manufacturers around the world to deliver revolutionary fabric technologies that protect you from the elements, increase comfort and maximize your enjoyment of outdoor activities, 365 days a year.

Fabric Technologies

GORE-TEX PERFORMANCE GARMENTS

Designed for when your outdoor adventures get wet—very wet. Whether you're exploring a national park with friends on a multi-day trek in the pouring rain, or encountering heavy snowfalls when riding the perfect tree run, these totally water- and windproof garments, with the **GUARANTEED TO KEEP YOU DRY™** promise, provide long-lasting breathability and solid protection so you can take your journey further. Lasting breathability / Solid protection / Durably waterproof / Totally windproof.

FLEX DRYO

As featured on our premium Flex Dryo range, stretch fabrics in the outershell and mesh lining work together to offer riders unparalleled freedom of movement. This highly advanced construction technique represents a new era of snowmobile apparel technology.

DRYOSPHERE

DRYOsphere fabrics provide a waterproof/breathable barrier from the elements. A shield against water and wind, DRYOsphere fabric also allows for water vapor to escape from the body, keeping you dry and comfortable in any conditions.

DEXFIL® Insulation

Thin and lightweight, Dexfil insulation provides superior insulation by trapping high levels of still air in each given space. The incredibly fine denier fabric creates an extraordinary insulating effect that retains its shape and insulating properties even after repeated cleaning.

Little Parts. Big Difference..

YKK WATERR ZIPPER

WaterR is a durable water-repellent treatment used to enhance YKK's range of aqua zippers. YKK's WaterR treated items are available for a variety of functions in both Coil and Vislon® and helps to reduce water seepage and wicking in outer shell garments and equipment. All our YKK WaterR zippers passed the GORE-TEX approval for SMB garments.

Little Parts. Big Difference..

YKK AQUAGUARD® ZIPPER

AquaGuard® is a water-repellent zipper. It is created by laminating PU on the textile tape, the PU layer is acting as a membrane. YKK's AquaGuard® items are available for a variety of functions in both Coil and Vislon®. It is the most commonly used zipper solution for quality rain and wind proof outer shell garments. Unlike standard PU coated items, the superior Aquaguard® range withstands an extensive shower test and does not absorb water.

CO DWR OR PFC-FREE

Perfluorinated and polyfluorinated compounds, also known as PFCs, are a group of fluorinated substances that have long been used to provide durable water repellence for clothing in the outdoor industry. They are very bad for the environment because they are very stable and do not easily break down in nature, which is why PFC-free/CO DWR treatments have been developed. These are less durable but more sustainable.

INSULATED MOBILE DEVICE POCKET

To the outside this pocket is insulated with 100 grams of isolation to preserve the battery of your mobile phone charged. To the inside, the napoleon pocket is equipped with a water vapor permeable textile to keep out sweat during extensive riding sessions

GLOVES

EXPLORAIR PLUS GTX LONG GLOVE

dark grey/black
2006

SCOTT EXPLORAIR PLUS GTX LONG GLOVE

292420

The SCOTT Explorair Plus GTX Long glove is a premium snowmobile glove built with the latest materials, features and construction methods. Its leather construction, mixed with PrimaLoft® Gold insulation and GORE-TEX technology provides primary warmth against harsh conditions during your big mountain adventures. The long gauntlet works to keep out the snow, whilst leather reinforcements with Kevlar® thread ensure this glove will stand the test of time, no matter how hard you ride.

COMPOSITION: MAIN FABRIC: 66% Goat leather (made in Pakistan), 31% Polyamide, 3% Elastane, **INSERT:** 100% Polytetrafluorethylene, **INSULATION:** 100% Polyester, **LINING:** 75% Polyester, 25% Polyamide

FIT: Regular

SIZE: XS - 3XL

RANGE OF USE: Sport Touring

FEATURES:

- + 100% breathable and waterproof GORE-TEX® insert with GORE Active Technology
- + 250g PrimaLoft® Gold back-of-hand insulation with 130g PrimaLoft® Gold palm insulation
- + External palm side finger seams
- + Abrasion resistant palm, index and thumb leather reinforcements
- + Heat-resistant DuPont™ Kevlar® thread on reinforcements
- + Long gauntlet
- + Wrist adjustment
- + Cuff closure

black

BOOTS

SCOTT SNOWMOBILE BOOT BOA SYSTEMS

DELIVERING FIT SOLUTIONS PURPOSE-BUILT FOR PERFORMANCE, THE BOA® FIT SYSTEM CONSISTS OF THREE INTEGRAL PARTS: A MICRO-ADJUSTABLE DIAL, A SUPER-STRONG LIGHTWEIGHT LACE AND LOW FRICTION LACE GUIDES. EACH UNIQUE CONFIGURATION IS ENGINEERED FOR FAST, EFFORTLESS, PRECISION FIT AND IS BACKED BY THE BOA® GUARANTEE.

KEY BENEFITS

AGILITY AND SPEED

The BOA® Fit System enables faster, more powerful directional changes through a seamless connection between equipment and body.

POWER AND PRECISION

Power without compromising precision, the BOA® Fit System delivers more explosive action and unparalleled accuracy.

ENDURANCE AND HEALTH

Go further, faster, and stronger. The BOA® Fit System saves energy by improving circulation and efficiency.

DURABILITY AND QUALITY

Engineered with high quality, durable materials, and rigorously field tested, the BOA® Fit System is guaranteed to perform in any environment.

A BOA FOCUS SYSTEM WHICH USES TWO INDEPENDENT DIALS TO SEPARATE THE LACING FOR THE UPPER AND LOWER ZONES OF THE BOOT.

SPEC

- + Upper: BOA H3+ Tongue compact shield coiler™. Dial G
- + Lower: BOA M3 Remote shield coiler™. Dial C

BENEFITS

- + Ideal for medium to soft flexing boots.
- + A customized fit in multiple zones accommodates varying foot volumes and swelling throughout the day.
- + H3 provides a 4:1 mechanical advantage, which allows the rider to adjust the tension of the dial with minimal effort.
- + M3v2's larger diameter provides added strength and power.
- + Durability, flexibility, SS2.

BOA®

FIT FOR LIFE WITH BOA®.
The BOA Fit System dials and laces
are guaranteed for the lifetime of the
product on which they are integrated.

*A HIGH-POWER SYSTEM THAT OFFERS ULTIMATE
SPEED AND A PRECISION FIT EVERY TIME.*

VENTILATED SOFT PROTECTIVE SCOTT
AIRFLEX BACK AND CHEST PLATES FEATURING D3O® TECHNOLOGY

ADJUSTABLE SIDE STRAPS

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

Performing at your best requires maximum freedom of movement. While protecting against any energy impact, AirFlex is light and follows your every movement. Soft as a marshmallow, but as hard as a diamond in case of an impact, AirFlex with D3O® feels like a second skin that adapts to your body.

We take safety seriously and the helmet team at SCOTT is passionate about it. We see it as our key goal of who we are and the helmets that we produce. We are proud that our full 2020 helmet range is equipped with the latest safety technologies.

SCOTT SOFTCON HYBRID PRO JACKET PROTECTOR

292080

The SCOTT Softcon Hybrid Pro Jacket Protector sets new standards in upper-body protection and offers users maximum safety with its superior Level 2 chest and back protector. The revolutionary soft ventilated D3O® plate design offers fully certified levels of safety and maximum freedom of movement, whilst simultaneously providing greatly increased airflow to the body. The breathable protection plates combined with strategically placed anti-moisture panels mean this protector works hard to keep you cool and dry when the action heats up. Designed with removable D3O® shoulder and elbow pads, the Softcon Hybrid Pro Jacket Protector is fully customizable and offers a level of protection you won't find anywhere else.

CONSTRUCTION: SCOTT AirFlex hip pad EVA foam
Stretchable and breathable mesh

COMPOSITION: PLATES: 100% Polyurethane, TEXTILE PART:
80% Polyamide, 20% Elastane

SIZE: S-XL

FEATURES:

- + Ventilated soft protective SCOTT PU hip pad
- + Additional thigh and pelvis padding
- + Elastic waistband
- + Stretchable and breathable fabrics

SCOTT SOFTCON 2 KNEE GUARD

273071

black/grey
1001

The SCOTT Softcon 2 Knee Guard is an invention that matches high safety standards with mobility. It provides specifically designed ergonomic and flexible D3O® pads, side padding and extended shin pad support. This knee guard also features efficient ergonomic positioned straps and an abrasion-resistant front panel.

STANDARD: Level 1 of EN1621-1

CONSTRUCTION: D3O® protective pads
Breathable and stretchable fabrics

COMPOSITION: PLATES: 100% Polyurethane, TEXTILE PART:
59% Polyester, 32% Polyamide, 9% Elastane

SIZE: S-XL

FEATURES:

- + SCOTT specifically designed ergonomic and flexible D3O® pad
- + Localized side padding
- + Extended shin pad support
- + Abrasion-resistant front fabric with reinforcement printing
- + Perforated neoprene construction with stretch mesh back panel
- + Ergonomic positioned straps

SCOTT SOFTCON HYBRID KNEE GUARD

278466

black
0001

With the perfect mix of specifically designed ergonomic and flexible D3O® padding combined with a co-molded plastic shell, the all-new SCOTT Softcon Hybrid Knee Guard offers flexible knee protection like never before. Side padding and extended shin pad support add to your protection levels whilst the stretch mesh back panel and ergonomic straps keep you comfortable all day long.

STANDARD: Level 1 of EN1621-1

CONSTRUCTION: D3O® protective pads
Co-molded soft plastic shell
Adjustable straps

COMPOSITION: PLATES: 100% Polyurethane, TEXTILE
PART: 48% Polyester, 43% Polyamide, 7% Elastane, 2%
Polyurethane

SIZE: S-XL

FEATURES:

- + SCOTT specifically designed ergonomic and flexible D3O® pad
- + Localized side padding
- + Extended shin pad support
- + Abrasion-resistant front panel with co-molded plastic shell, improving sliding and penetration resistance
- + Perforated neoprene construction with stretch mesh back panel
- + Ergonomic positioned straps

SCOTT AIRFLEX PRO BACK PROTECTOR

271929

Twice as safe as our Level 1 back protectors, the Level 2-certified SCOTT AirFlex Pro Back Protector is the go-to protector for those who are not afraid to go all in! Shoulder and hip straps ensure the breathable D3O® plate stays firmly in place so you are always fully protected - while giving you all the freedom you need.

STANDARD: Level 2 of EN1621-2

CONSTRUCTION: SCOTT AirFlex Pro D3O® plate
Breathable and stretchable mesh fabrics

COMPOSITION: PLATES: 100% Polyurethane, TEXTILE PARTS:
68% Polyamide, 17% Elastane, 15% Polyester

SIZE: S/M, L/XL, XL/2XL

FEATURES:

- + Innovative soft protective SCOTT AirFlex Pro back plate featuring D3O® technology
- + Adjustable shoulder straps with sternum closure
- + Integrated adjustable mesh hip belt with hook and loop closure

SCOTT GRENADE EVO ELBOW GUARD

274521

The SCOTT Grenade Evo Elbow Guard has an integrated strap that keeps the pads in place without feeling too tight on your arm. The strategically positioned ergonomic straps paired with a breathable stretch mesh provide maximum comfort. Our engineers have re-designed the standard D3O® pads used by numerous competitors to ensure an unmatched level of protection.

STANDARD: Level 1 of EN1621-1

CONSTRUCTION: D3O® material
Adjustable elastic strap

COMPOSITION: TEXTILE PARTS: 55% Polyamide, 41% Polyester, 3% Elastane, 1% Aramid, PLATES: 100% Polyurethane

SIZE: S, M, L

FEATURES:

- + SCOTT specifically designed ergonomic and flexible D3O® pad
- + Localized side padding
- + Abrasion-resistant front panel
- + Perforated neoprene construction with stretch mesh back panel
- + Ergonomic positioned straps
- + Removable pad

black
0001

black/grey
1001

The SCOTT Softcon 2 Elbow Guard is a perfect choice for those looking for flexible and shock-absorbing elbow protectors. With maximum comfort levels thanks to the extra-lightweight D3O® pads, integrated with breathable mesh, you'll almost forget you're wearing them at all.

STANDARD: Level 1 of EN1621-1

CONSTRUCTION: D3O® protective pads
Breathable and stretchable fabrics

COMPOSITION: PLATES: 100% Polyurethane, **TEXTILE PART:**
44% Polyamide, 43% Polyester, 13% Elastane

SIZE: S-XL

FEATURES:

- + Extra-lightweight protection
- + SCOTT specifically designed ergonomic and flexible D3O® pad with side extensions
- + Strapless construction with silicone printing retaining system
- + Stretch mesh sleeve main body with pre-curved chassis
- + Abrasion-resistant front fabric with reinforcement printing

JUNIOR

SCOTT SOFTCON JUNIOR JACKET PROTECTOR

278467

black
0001

The SCOTT Softcon Junior Jacket Protector sets new standards in kids' upper-body protection. The revolutionary soft ventilated D3O® plate design offers fully certified levels of safety and maximum freedom of movement, whilst simultaneously providing greatly increased airflow to the body. The breathable protection plates combined with strategically placed anti-moisture panels mean this jacket works hard to keep you cool and dry when the action heats up. Designed for the youth rider who wants fully customizable upper-body protection that doesn't restrict their riding, the Softcon Junior Jacket Protector is the best option out there.

PROTECTION TECHNOLOGIES

The new protection standard

THE SAFER PROTECTION

SCOTT AirFlex protection excels with a SCOTT exclusive D3O® design that protects what matters. Improved protection along the spine with extended support in the crucial lumbar area reduces the risk of injuries by absorbing any type of impact. All of our protection are certified according to current European standards – EN 1621-2. We are proud to offer protection that goes beyond this standard and elevates your safety by covering more of your crucial body parts.

VENTILATION. MAXIMUM AIRFLOW

Gone are the times when back protectors were adding heat. With strategically placed air vents, AirFlex controls body temperature by allowing maximum airflow. Keep your body at the right temperature in every moment.

COMFORT THROUGH FLEXIBILITY

Performing at your best requires maximum freedom of movement. While protecting against any energy impact, AirFlex is light and follows your every movement. Soft as a marshmallow, but hard as a diamond in the event of an impact, AirFlex with D3O® feels like a second skin that adapts to your body.

Technology

D3O® IMPACT PROTECTION TECHNOLOGY

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

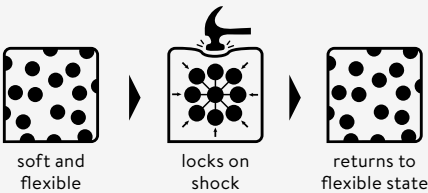

SHOCK ABSORPTION

Unique technology that focuses on energy absorption and protection.

LIGHT & FLEXIBLE

Provides maximum comfort and protection at the same time.

CE CERTIFIED

Integrated D3O® protectors allow for highest levels of safety according to CE EN 1621.

Features

SOFT-SHELL

Soft-shell construction offers more flexibility and comfort.

EASILY WASHABLE

Inserted protective plate is easily removable and washable.

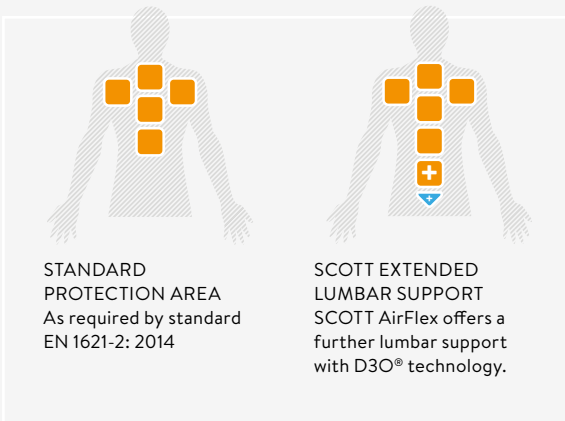

BACK-PACK FRIENDLY

Some of our plates are so thin that you can even wear a backpack over them.

LUMBAR SUPPORT

For improved protection of your back and spine, with extended support in the crucial lumbar area.

STANDARD PROTECTION AREA
As required by standard
EN 1621-2: 2014

SCOTT EXTENDED LUMBAR SUPPORT
SCOTT AirFlex offers a further lumbar support with D3O® technology.

PROTECTION BEYOND STANDARDS EXTENDED LUMBAR SUPPORT

For improved protection of your back and spine, with extended support in the crucial lumbar area. We are proud to offer protection that goes beyond the standard and elevates your safety by covering more of your crucial body parts.

CERTIFICATION

All our protectors are certified according to current European standards - EN 1621-2: 2014.

LEVEL 1

The innovative AirFlex plate is made with an exclusive D3O® material for ultimate protective performance. Strategically placed vents and a flexible design mean optimal airflow and maximum comfort.

Withstands 5kg impacts with no more than 18KN of force transmitted.

PERFECT FOR: Versatile riders who seek a lightweight protector

BACKPACKS & BAGS

PATROL E2

ELEVATE YOUR SAFETY

The SCOTT Patrol E2 is the ultimate avalanche backpack, evolving from our iconic SCOTT Patrol E1 and pushing the boundaries of innovation. It features Alpride E2 Airbag system, the lightest one on the market to date. Equipped with state-of-the-art supercapacitor technology, its new slimmer design makes it the perfect ally when every gram counts.

ALPRIDE E2 SYSTEM

-
- 1 LCD display
 - 2 Reworked construction
 - 3 Battery compartment
 - 4 Deflation knob accessible from the outside
 - 5 USB-C charging standard
 - 6 Overpressure valve
 - 7 Status led

WHAT YOU NEED TO KNOW

SUPERCAPACITOR TECHNOLOGY WITH LCD DISPLAY CONTROL:
Cold temperatures do not affect the performance or charge of the supercapacitor

TURBO RADIAL FAN:
More pressure and volume in a shorter amount of time

2X AA BATTERIES:
Recharge on the mountain in 40min. without power supply or use your micro USB to charge it in 20min.

NO CARTRIDGES/NO LI-ON BATTERY:
No restrictions for travelling and shipping

FULL SYSTEM WEIGHT 1140G:
Lighter than any other electronic system on the market

AUTOMATIC PRESSURE RELIEF VALVE:
3 minutes after inflation

MECHANICAL TRIGGER AND DEFLATION RELEASE:
Robust design to mitigate electronic failure

ZERO COST USER PRACTICE:
Allows you to train at home to know how to react on a bad day

SCOTT PACK RADIATOR 12

292400

The SCOTT Radiator 12 Pack is the ultimate piece of kit for enduro and off-road riding. The tactical-style design means that as well as having ample space in the main compartment, there are also two generous pockets integrated into the front straps for extra essentials that need quick and easy access. With a separate bladder compartment and adjustable tube fixation points, this pack is fully hydro-ready for those who want to add a bladder. A highly adjustable strap system means you can customize the fit perfectly whilst durable materials and construction will make sure the Radiator 12 Pack will hold up under even the most demanding of conditions.

CONSTRUCTION: H400D x 400D PU-coated

COMPOSITION: SHELL FABRIC: 100% Polyamide, **LINING:** 100% Polyester

DIMENSIONS: HEIGHT: 46cm, **WIDTH:** 27cm, **DEPTH:** 14cm

VOLUME: 12L

APPROX. WEIGHT: 0.73kg

FEATURES:

- + Separate bladder compartment

SCOTT PACK ROAMER HYDRO 8

292401

The SCOTT Roamer Hydro 8 Pack is a lightweight hydration pack specifically designed for the modern enduro rider. It has all the features you need and none that you don't. With a 2L bladder included, an insulated bladder compartment and adjustable tube fixation points, all you need to do is add water and hit the trail! A highly adjustable multi-point strap fixing system means the pack will always stay in place on your back no matter how gnarly the terrain gets. Compact pockets also give you space to stow your extra essentials whilst durable materials and construction will make sure the Roamer Hydro 8 Pack will hold up under even the most demanding of conditions.

CONSTRUCTION: H400D x 400D PU-coated

COMPOSITION: SHELL FABRIC: 100% Polyamide, LINING: 100% Polyester

DIMENSIONS: HEIGHT: 46cm, WIDTH: 27cm, DEPTH: 9cm

VOLUME: 8L

SCOTT WHEEL DUFFLE 110 BAG

250079

With a massive main compartment and a separate compartment the SCOTT Wheel Duffle 110 offers plenty of space for all your gear. Its abrasion-resistant and water-repellent fabric paired with high-quality shock-absorbing wheels let you overcome any obstacles or muddy terrain. Because the SCOTT duffle is completely foldable, the integrated stuff bag is a convenient option for compressed storage or a smart place to stash those muddy shoes or that dirty laundry while travelling. One nifty feature of the duffle is that you can adjust the size of the bag to whatever equipment you are carrying - that way you can make sure the bag remains rigid and your gear does not get dragged along the ground.

CONSTRUCTION: 900D Reverse PU

COMPOSITION: SHELL FABRIC: 100% Polyester
LINING: 100% Polyester

DIMENSIONS: HEIGHT: 85cm

WIDTH: 43cm

DEPTH: 36cm

VOLUME: 110L

APPROX. WEIGHT: 2200g

SIZE: one size

FEATURES:

- + Multiple carrying options (top handle, shoulder straps)
- + Separate compartment for muddy gear
- + Abrasion-resistant, water-repellent fabric
- + Large, solid & absorbing wheels
- + Stuff bag for compressed storage option or as a smart place to stash muddy shoes
